# **INDEPENDENT AUDITORS' REPORT**

The Honorable Mayor and Board of Aldermen City of Dyersburg Dyersburg, Tennessee

# **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the businesstype activities, each major fund, and the aggregate remaining fund information of the City of Dyersburg, Tennessee, (the City) as of and for the year ended June 30, 2020, and the fiduciary fund of the Dyersburg City Schools Retirement Plan and the fiduciary fund of Dyersburg Electric Retirement Plan for the year ended December 31, 2019, and the fiduciary fund for the City of Dyersburg Pension Plan for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

# Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Dyersburg City Schools Board of Education, which is both a major fund and 28 percent and 2 percent, and 59 percent respectively, of the total assets and deferred outflows, net position, and revenues of the governmental activities. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Dyersburg City Schools Board of Education is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require

64 Lynoak Cv Jackson, TN 38305 (731)668-1806 Fax (731)668-9543

1205 East Wood St. Paris, TN 38242 (731)642-1755 Fax (731)644-0413 1129 S. Main St. PO Box 681 Milan, TN 38358 (731)686-0181 304 Broadway St. Martin, TN 38237 (731)587-4221 Fax (731)587-9474 11 N. Court Square Brownsville, TN 38012 (731)772-2273 Fax (731)772-2275 110 West Court Dyersburg, TN 38024 (731)286-6080 Fax (731)285-8975 that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# Opinions

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information of the City of Dyersburg, Tennessee, as of June 30, 2020, and the fiduciary funds of Dyersburg Electric Defined Benefit Plan and the fiduciary fund of the Dyersburg City Schools Retirement Plan for the year ended December 31, 2019, and the fiduciary funds of the City of Dyersburg Pension Plan for the year ended June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund and school general purpose funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

# **Other Matters**

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the pension and other post-employment benefits schedules as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, supplementary and other information section including the schedule of expenditures of federal awards and state financial assistance, as required by *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and the other miscellaneous information section-unaudited are presented for purposes of additional analysis and are not a required part of the basic financial statements.* 

The supplementary and other information, including the Schedule of Expenditures of Federal Awards and State Financial Assistance, as listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary and other information section is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other miscellaneous information section-unaudited and the introductory section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 5, 2021, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Cowart Reese Sargent. CPAs. P.C.

Cowart Reese Sargent CPAs, P.C. Dyersburg, Tennessee March 5, 2021

As management of the City of Dyersburg, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2020.

#### **FINANCIAL HIGHLIGHTS**

The assets and deferred outflows of resources of the City of Dyersburg exceeded its liabilities and deferred inflows of resources at June 30, 2020 by \$107,160,489 (net position). Of this amount,

- \$5,074,955 is unrestricted and may be used to meet the government's ongoing obligations to citizens and creditors in accordance with the City's fund designation and fiscal policies. See page 19.
- > The City's total net position increased by \$4,708,517.
- > At June 30, 2020, the governmental funds reported combined ending fund balances of \$10,414,178, of which \$3,172,623 was unassigned and available for use at the City's discretion. See page 21.
- > Governmental fund balances increased by \$330,702 (page 23) during the year.
- > During the fiscal year ended June 30, 2020, the City's total notes from direct borrowings and bonds payable decreased by \$1,921,821 (see page 15 of the report for debt payments by activity).

## OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains required, supplementary, and other information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the City's assets, liabilities, and deferred outflows/inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the City's net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, public works, schools, parks and recreation, and community services. The business-type activities of the City include Gas, Water and Sewer, Solid Waste Management and Electric operations.

The government-wide financial statements can be found on pages 18 - 20 of this report.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories - governmental funds and proprietary funds.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term effect of the government's near-term financing decisions. Both the governmental fund's balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains 10 governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund and School Fund, both of which are considered to be major funds. Data from the other 8 funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements in the supplementary and other information section of this report.

The City adopts an annual appropriated budget for its governmental funds and proprietary funds except for the Electric Fund. Budgetary comparison schedules have been provided for all funds except for proprietary funds to demonstrate compliance with the budget presented as required supplemental information. Comparison schedules for major funds are presented along with the fund financial statements. Non-major funds are presented as supplementary and other information.

The basic governmental fund financial statements can be found on pages 21-30 of this report.

**Proprietary Funds.** The City maintains two types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its gas, water and sewer, solid waste management, and electric operations. Internal service funds are an accounting device used to accumulate and allocate costs internally to the City's various funds for communication costs and utility billing and collecting costs. Because these services benefit both governmental functions and business-type functions, they have been allocated to governmental activities and business-type activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Gas, Water and Sewer, Solid Waste Management Fund and Electric funds since they are considered to be major funds of the City. All internal service funds are combined into a single aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 31-35 of this report.

**Notes to the Financial Statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 39-85 of this report.

The combining statements referred to earlier in connection with non-major governmental funds and internal service funds are presented following the required supplementary information on pensions. Combining and individual statements and schedules can be found on pages 95-115 of this report.

## **GOVERNMENTAL-WIDE FINANCIAL ANALYSIS**

The City's combined net position increased \$4,708,517 or 4.6% from 2019 to 2020. Net position increased \$3,854,024 in governmental activities, with business-type activities increasing \$854,493. Combined net position (assets and deferred outflows exceeding liabilities and deferred inflows of resources) was \$107,160,489 at June 30, 2020. The table below provides a comparative summary of the City's net position as of June 30, 2020 and 2019.

|                               | -    | Governmen    | tal      | Activities   | Business-type |             |     |             | Total |             |    |             |

#### **CITY OF DYERSBURG'S NET POSITION**

The largest portion of the City's net position (\$93,418,503 or 87%) reflects its investments in capital assets, less any debt used to acquire those assets that is still outstanding. The net investment in capital assets increased \$419,833 from 2019. Of this increase governmental activities decreased \$483,062, and business-type activities increased \$902,895. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

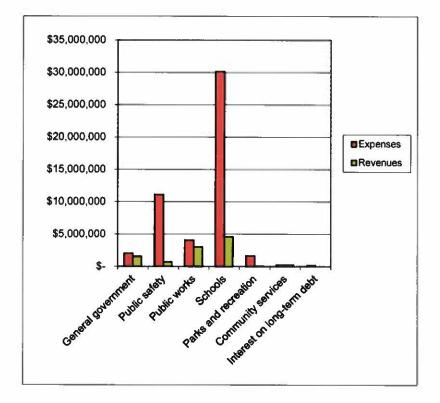

An additional portion of the City's net position (\$8,667,031 or 8%) represents resources that are subject to external restriction on how they may be used. Restricted net position increased \$1,048,591 from 2019. The remaining balance of net position (unrestricted net position of \$5,074,955) may be used to meet the government's ongoing obligation to citizens and creditors. Unrestricted net position increased \$3,240,093 from 2019.

**Analysis of the City's Operations.** The following table provides a comparative summary of the City's operations for the years ended June 30, 2020 and 2019. Also, summary tables comparing 2020 with 2019 along with charts for 2020 are presented on pages 9 through 12 for Governmental expenses and program revenues and for Business-type expenses and program revenues. Governmental activities increased the City's net position by \$3,854,024 in 2020 compared to an increase of \$259,635 in 2019. Business-type activities increased the City's net position by \$854,493 in 2020 compared to a increase of \$3,049,452 in 2019.

#### **CITY OF DYERSBURG'S CHANGES IN NET POSITION**

The purpose of this bar chart is to present a comparison of expenses with their program revenues (i.e. revenues generated by the function) by function. The difference in the bars represents the amount of expenses being funded by tax revenues. The Table below presents the actual amounts that support the Chart below.

#### FINANCIAL ANALYSIS OF THE GOVERNMENTS FUNDS

**Governmental funds.** The focus of the City of Dyersburg's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City of Dyersburg governmental funds reported combined ending fund balances of \$10,414,178, an increase of \$330,702 in comparison with the prior year. \$3,172,623 or 30% of the fund balance represents unassigned fund balance, which is available for spending at the City's discretion. The remainder of the fund balance is either non-spendable (\$132,640) or restricted (\$7,108,915).

In the general fund, the City budgeted for an increase in the fund balance of \$1,900. Actual revenues were \$1,821,480 under budgeted revenues and actual expenditures were \$1,669,739 under budgeted expenditures. Total expenditures exceeded revenues by \$2,424,841. This amount netted against other financing sources (uses) of \$2,367,774 resulted in the fund balance decreasing \$57,067 for fiscal year 2020. School fund balance increased \$358,065.

**Proprietary funds.** The City's proprietary fund statements provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the respective proprietary funds are \$7,855,285 in Gas, \$961,306 in Water and Sewer, \$931,598 in Solid Waste Management, and \$6,302,253 in the Electric System. The Gas fund had a decrease in net position of \$480,837, Electric System net position increased \$245,635, Water and Sewer fund net position increased \$443,237 and the Solid Waste Management fund net position increased \$892,753.

#### **CAPITAL ASSETS**

The City of Dyersburg's investment in capital assets for its governmental and business-type activities as of June 30, 2020, was \$116,528,993 (net of accumulated depreciation), a decrease of \$462,499 or less than 1% from 2019. The increase is the result of net additions to capital assets of \$5,516,336 (a \$2,053,759 increase for Governmental activities and a \$3,462,577 increase for Business-type activities) net of depreciation of capital assets of \$5,978,835 (\$3,025,932 for Governmental activities and \$2,952,903 for Business-type activities). The investment in capital assets includes land, buildings and systems, improvements other than buildings, machinery, vehicles and equipment, infrastructure and construction in progress.

Major capital asset additions during the current fiscal year included the following (as rounded to the nearest hundred):

| Governmental Funds                  |                 |
|-------------------------------------|-----------------|
| General Fund -                      |                 |

Additional information on the City of Dyersburg's capital assets can be found in Footnote IV. C. on pages 49-50 of this report.

#### DEBT ADMINISTRATION

At June 30, 2020, the City of Dyersburg had total bonded debt and notes from direct borrowings of \$22,071,001. Of this amount, \$11,022,399 comprises bonded debt backed by the full faith and credit of the government and \$2,575,000 represents bonds secured by electric revenues. The notes from direct borrowings of \$8,473,602 pertains to the general fund (\$5,495,817) and schools (\$2,977,785).

Total debt decreased \$1,921,821 or 8% from June 30, 2019 to June 30, 2020 as a resul of payments made during the year.

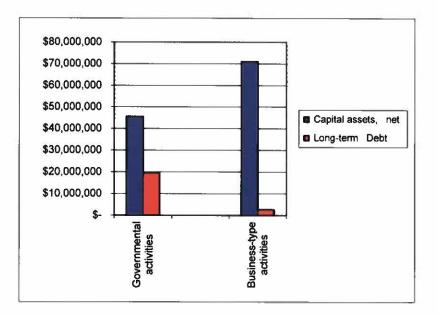

## Outstanding Debt at Year End Bonds and Notes Payable

The City's long-term debt at June 30, 2020 and 2019 is summarized below:

|                              |    |                           | 2020                      |                  |       |                           | 2019                       |                  |

|                          | \$ 116,528,993                            | \$ 22,071,001     | \$ 116,991,492                            | \$ 23,992,822     |  |  |  |

## ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The unemployment rate of Dyer County is 5.6%. This compares unfavorably to the state's average unemployment rate of 3.9% and the national average of 3.8%.

Inflationary trends in the region compare favorably to national indices.

As a result of the economic condition in the area, the City has made a concerted effort to limit appropriations to only those items truly necessary.

The property tax rate was decreased to \$2.37 for the 2020-2021 fiscal year due to property reappraisals.

User rates remained the same for water and gas services and refuse collection for fiscal year 2019-2020.

Sewer rates were increased by 3% for fiscal year 2020-2021.

## **REQUEST FOR INFORMATION**

The financial report is designed to provide our citizens, customers, investors and creditors with general overview of the City's finances. If you have questions about this report or need any additional information, contact the Treasurer's Office at P.O. Box 1358, Dyersburg, TN 38025-1358 or call (731) 288-7609.

Information for Dyersburg City Schools and Dyersburg Electric System is presented is their separately issued reports and therefore, not presented here.

#### CITY OF DYERSBURG, TENNESSEE RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2020

| Amounts reported for governmental activities in the statement of activities (page 20) are<br>different because:   |                 |
|---|-----------------|
| Net change in fund balances - total governmental funds (page 23)  | \$<br>330,702   |
| Revenues in the statement of activities that do not provide current financial resources and are not reported as revenues in the funds.  | 31,404          |
| Governmental funds report capital outlays as expenditures. However, in the<br>statement of activities the cost of those assets is allocated over their estimated<br>useful lives and reported as depreciation expense. This is the amount by which<br>depreciation expense exceeded capital outlay.   | (971,971)       |
| Pension contributions are reported as expenditures in the governmental funds.<br>However, pension expense in the statement of activities is primarily the result<br>of changes in the components of the net pension asset/liability over current and<br>future periods.   | 2,710,706       |
| The issuance of long-term debt (e.g., bonds, notes) and the refunding of long-term debt<br>provides current financial resources to governmental funds, while the repayment of<br>the principal of long-term debt consumes the current resources of governmental funds.<br>Neither transaction, however, has any effect on net position. Also, governmental funds<br>report the effect of premiums, discounts, and similar items when debt is first<br>issued. This amount is the net effect of these differences in the treatment of<br>long-term debt and related items. | 1,546,821       |
| The net expense of certain activities of internal service funds is reported with governmental activities.   | 246,152         |
| The increase/decrease in the liability for compensated absences is not reported in governmental funds.  | <br>(39,790)    |
| Change in net position of governmental activities (page 20)   | \$<br>3,854,024 |

| REVENUES   |    | Budgeted<br>Original<br>& Final | Actual |                      | Variance wi<br>Final Budge<br>Positive<br>(Negative) |                  |

## I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Reporting Entity

The City of Dyersburg, TN (City) is a municipal corporation governed by an elected mayor and eight-member Board of Aldermen. The accompanying financial statements include the accounts of all City operations. Based on the criteria of Section 2100 of GASB's Codification of *Governmental Accounting and Financial Reporting Standards*, the City has no component units.

#### **B.** Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current *financial resources measurement* focus and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both *measurable and available*. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within sixty (60) days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental funds:

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The school fund accounts for the activities of the Dyersburg City Schools. The City provides elementary through secondary educational opportunities for its residents.

The government reports the following major proprietary funds:

The water and sewer fund accounts for the activities of the City's Water and Sewer system. The City operates the sewage treatment plant, sewage pumping stations and collection systems, and the water distribution and purification system.

The natural gas fund accounts for the activities of the City's natural gas distribution system.

The **solid waste management fund** accounts for the activities of the City's landfill and the collection system of residential, commercial, and industrial garbage.

The electric fund accounts for the activities of the City's electric distribution operations.

Additionally, the government reports the following fund types:

The *Internal service funds* account for data processing, utility billing, utility collection, and communication services provided to other funds of the City on a cost reimbursement basis.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Government Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's enterprise funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers for goods and services provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and of the City's internal service funds are charges to customers for sales and services. The enterprise funds also recognize as operating revenue the portion of fees charged that are intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

#### D. Assets, Liabilities, and Net Assets or Equity

#### 1. Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three (3) months or less from the date of acquisition.

The City is allowed to invest in (1) obligations of the United States or its agencies and instrumentalities; (2) direct obligations of the State of Tennessee or its agencies; (3) other obligations, the principal of and interest on which are unconditionally guaranteed or insured by the State of Tennessee or the United States; (4) certificates of deposits issued by state and national banks domiciled in Tennessee that are guaranteed or insured by the Federal Deposit Insurance Corporation or its successor, or secured by obligations mentioned above; and (5) fully collateralized direct repurchase agreements having a defined termination date.

Investments for the City are reported at fair value.

#### 2. Receivables and Payables

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. These amounts are classified as Due to/from other funds.

All trade and property tax receivables are shown net of an allowance for uncollectible accounts. The allowances for uncollectible accounts have been established at an amount considered sufficient by the City to offset losses from customers nonpayment.

The City's property tax schedule as defined by the City Charter is as follows: Property taxes are levied as of September 1 on the property values assessed as of the prior January 1. Taxes are due September 1 through December 31 and are delinquent on the following January 1. Tax bills are mailed on September 1. Tax liens are automatic on January 1 each year and continue until such taxes and any penalty, interest or other charges accruing thereon are paid. Assessed values are established by the County Tax Assessor at 25% of appraised market value for residential real property, 40% for commercial real property, 55% for public utilities, and 30% for business personal property. A complete reappraisal of all property is required every six (6) years with an update after the third year. A revaluation was completed in 2020. The City's tax rate applicable to 2020 was \$2.55 on each \$100 of tax valuation.

#### 3. Inventories and Prepaid Items

The inventory of materials and supplies of the proprietary funds are valued at the lower of market or average cost. The inventory of the Dyersburg City Schools is valued at cost, using the first-in/first-out (FIFO) method. Inventories are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

#### 4. Capital Assets, Depreciation, and Amortization

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two (2) years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. However, the Dyersburg Electric System does not capitalize construction period interest into the cost of fixed assets because the borrowings are not related to specific projects and are incurred for general repairs, maintenance, and plant expansion.

Property, plant, and equipment of the primary government is depreciated using the straight-line method over the following estimated useful lives:

| Assets                       | Years |  |  |
|------------------------------|-------|--|--|
| Buildings                    | 50    |  |  |
| Building improvements        | 20    |  |  |
| Public domain infrastructure | 50    |  |  |
| System infrastructure        | 30    |  |  |
| Vehicles                     | 5     |  |  |
| Office equipment             | 5     |  |  |
| Computer equipment           | 5     |  |  |

The City policy for amortization of deferred charges and of acquisition cost of utility customers is to amortize these costs over their estimated benefit period. Amortization periods range from five (5) to twelve (12) years.

#### 5. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All vacation and sick pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. Governmental funds report only matured compensated absences payable to currently terminating employees and are included in wages and benefits payable. Unpaid compensated absences for proprietary fund types are recorded as expenses and liabilities in those funds as the benefits accrue to employees.

#### 6. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

## 7. Fund Equity

GASB 54 requires the fund balance amounts to be properly reported within one of the following fund balance categories:

Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example: inventories, prepaid amounts, and long term notes receivable.

Restricted: This classification includes amounts for which constraints have been placed on the use of the resources that are either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation.

Committed: This classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Board of Mayor and Aldermen (the City's highest level of decision-making authority) either by ordinance or resolution. These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed.

Assigned: This classification includes spendable amounts that are reported in governmental funds other than the General Fund, that are neither restricted nor committed, and amounts in the General Fund that are intended to be used for a specific purpose in accordance with the provisions of GASB Statement 54. The intent of an assigned fund balance should be expressed by either the Board of Mayor and Aldermen, or a subordinate high-level body, such as the Finance Committee, that has the authority to assign amounts to be used for specific purposes.

Unassigned: This classification is the residual fund balance for the General Fund. It also represents the fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

In the government-wide financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change. Governmental funds also report fund balance amounts representing funds invested in capital assets net of related debt and unrestricted funds.

When fund balance resources are available for a specific purpose in multiple classifications, the Board would use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed. However, it reserves the right to selectively spend unassigned resources first and to defer the use of the other classified funds.

#### 8. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### 9. Vacation and Sick Leave

The City has established various vacation and sick leave policies for different segments of employees.

a) Dyersburg School System - The School System provides one day of vacation for each month of service for professional employees. Any unused vacation is paid at year end to the employee. Professional employees receive one day of sick leave for each month of service. Any sick leave unused is not paid, but is used to increase retirement benefits. Nonprofessional employees receive .75 days per month or the equivalent of 9 days per year to be used as sick leave or vacation. The non-professional employees can accumulate up to a maximum of 15 days. The days accumulated in excess of the maximum are to be paid to the employees as .5 days pay for days accumulated in excess of the maximum allowed.

b) Dyersburg Electric System - Electric System employees accrue vacation days under the following terms:

| Employment Term      | Days Earned         |
|----------------------|---------------------|
| 1 month to 10 years  | 1 day per month     |
| 11 years to 15 years | 1.25 days per month |
| 16 years to 20 years | 1.50 days per month |
| Over 20 years        | 1.75 days per month |

A maximum of 252 hours may be carried forward into the next calendar year. Sick leave accumulates at the rate of one day for each full calendar month of employment service. Unused sick leave days may accumulate from year to year up to a maximum of ninety days.

c) Firefighters accrue vacation days under the following terms:

| Employment Term | Days Earned             |
|-----------------|-------------------------|
| 1 to 2 years    | 3 shift days (1 week)   |
| 2 to 10 years   | 5 shift days (2 weeks)  |
| 10 to 20 years  | 8 shift days (3 weeks)  |
| Over 20 years   | 10 shift days (4 weeks) |

Vacation leave shall begin to accrue at the end of the first full month of employment, but may be granted only after the probation period is completed. Vacation time not used during the anniversary year may be carried forward to the following anniversary year subject to the approval of the department head. Sick leave with pay shall be granted to all full-time employees at the rate of one-half shift day for each completed month of service and may be accrued to a maximum of forty-five (45) days. Employees shall accrue sick leave from their employment date. No payment will be made for accrued sick leave upon separation, except for those employees that have accumulated twenty years of service with the City and that were employed prior to March 18, 1991.

d) Other City employees - All other City employees are allowed paid vacations of five days after one year of service, ten days after two years, fifteen days after ten years, and twenty days after twenty years. Unused vacations may be accumulated to a maximum of three hundred sixty (360) hours and carried forward to the following year. Sick leave with pay shall be granted all full-time employees at the rate of one working day for each completed month of service and may be accrued to a maximum of ninety (90) days. Employees shall accrue sick leave from their employment date. No payment will be made for accrued sick leave upon separation, except for those employees that have accumulated twenty years of service with the City and that were employed prior to March 18, 1991.

#### 10. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The City presently has deferred outflows of resources related to pensions.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has three items that qualify for reporting in this category. Unavailable revenue is reported as deferred inflows of resources in the fund financial statements for property taxes and confiscated funds that are not collectible in the current fiscal period or within sixty days of the end of the current fiscal period. Unavailable revenues are reported in the government wide financial statements for property taxes that are levied but not due until September of the next fiscal year. There are also deferred inflows related to pensions.

#### 11. Utility Pole Rental

The Electric System contracts with other utilities to share poles for lines. These contracts are renewed on an annual basis. Pole rent expense for the year ended June 30, 2020, was \$17,281.

## 12 Pensions

## Dyersburg Electric System

The System has a defined benefit pension plan covering substantially all of its employees. Payments made after the measurement date for the defined benefit plan are deferred in the financial statements. Investments are reported at fair value. Employees hired or rehired after December 31, 2012 are mostly participants in the defined contribution plan. Employer contributions to this plan are expensed as incurred.

## **Dyersburg City Schools**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teacher Legacy Pension Plan and Teacher Retirement Plan in the Tennessee Consolidated Retirement System (TCRS) and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the TCRS. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the Teacher Legacy Pension Plan. Investments are reported at fair value.

## City of Dyersburg

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's participation in their single employer defined benefit pension plan, and additions to/deductions from the City's fiduciary net position have been determined on the same basis as they are reported by the retirement plan. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the retirement plan. Investments are reported at fair value.

#### E. Impact of Recently Issued Accounting Pronouncements

In March 2018, the GASB issued Statement No. 88 - Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements, effective for financial statements for periods beginning after June 30, 2018. The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowing and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. Management has implemented GASB Statement No. 88 in the current financial statements.

In May 2020, the GASB issued Statement No. 95 - Postponement of the Effective Dates of Certain Authoritative Guidance which postponed the effective date of GASB Statements No. 88 by one year.

#### II. Reconciliation of Government-Wide and Fund Financial Statement

# A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes a reconciliation between fund balance - total governmental funds and net assets - governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this \$24,034,102 difference are as follows:

| Bonds payable  | \$ 11,022,399 |
|--|---------------|
| Notes payable  | 8,473,602     |
| Compensated absences   | 4,538,101     |
| Net adjustment to reduce fund balance - total governmental funds to arrive at net assets - governmental activities | \$ 24,034,102 |

# B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over the estimated useful lives and reported as depreciation expense." The details of this (\$971,971) difference are as follows:

| Capital outlay   | \$<br>2,053,759 |
|--|-----------------|
| Less depreciation expense  | <br>(3,025,730) |
| Net adjustment to decrease net changes in fund balances -<br>total governmental funds to arrive at changes in net assets |                 |
| of governmental activities   | <br>(971,971)   |

#### III. Stewardship, Compliance, and Accountability

### A. Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse the fiscal year end.

The appropriated budget is prepared by fund, function, and department and approved by a budget ordinance. No budgeted appropriation may be exceeded without an amendment of the budget ordinance. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level.

#### IV. Detail Notes on All Funds

#### A. Deposits and Investments

Cash and certificates of deposit are carried at cost which approximates market value.

The City is mandated by law to require that the financial institutions in which they maintain deposits pledge securities to collateralize deposits which are in excess of the amount covered by federal insurance. At June 30, 2020, the City's bank deposits were entirely insured with FDIC Insurance or through the state bank collateral pool.

At year end, the government's investment balances were as follows:

|                                      | !r | ovestments |    | Trust<br>Funds |    | Total     |
|--------------------------------------|----|------------|----|----------------|----|-----------|
| Time Deposits                        | \$ | 10,000     | \$ | -              | \$ | 10,000    |
| Certificates of Deposit              |    | 4,093,932  |    | -              |    | 4,093,932 |
| U. S. Agencies and Instrumentalities |    | -          |    | 1,614,745      |    | 1,614,745 |
| Total Securities                     |    | 4,103,932  |    | 1,614,745      |    | 5,718,677 |
| Local Government Investment Pool     |    | 1,109,854  |    | -              |    | 1,109,854 |
| Total Investments                    | \$ | 5,213,786  | \$ | 1,614,745      | \$ | 6,828,531 |
|                                      |    |            | -  |                | _  |           |

Local Government Investment Pool investments are not categorized, in accordance with GASB No. 3, because they are not evidenced by securities that exist in physical or book entry form.

The State Treasurer operates the State Pooled Investment Fund of which the Local Government Investment Pool is a part. The funds are invested by the State at various financial institutions in the State and in other approved investments. The funds may be liquidated as needed.

The State Pooled Investment Fund (SPIF) operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. Therefore, the SPIF uses amortized cost accounting measures to report investments and share prices. Accordingly, the fair value of the position in SPIF is the same as the value of SPIF shares.

The investments reported in the fiduciary funds are related to the School's non-professional employees' pension plan, Dyersburg Electric pension plan, and the City of Dyersburg pension plan. Each plan's policy in regard to the allocation of invested assets is established and may be amended through a majority vote of the members of each fund's appointed Board of Directors. It is the policy of those Boards to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The following information is related to each individual funds' fiduciary fund investments.

## **Dyersburg City Schools**

The following is the asset allocation as of December 31, 2019:

|                          | <br>Value       | of Total |
|--------------------------|-----------------|----------|
| Pooled separate accounts | \$<br>5,996,947 | 93.00%   |

|                       | Internal Service      | 44,599       |
|                       | Nonmajor governmental | 5,074        |
| Total                 | 107 VO                | \$ 3,431,676 |

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Interfund transfers for the year ending June 30, 220:

| Transfer To            | Transfer From                        | <br>Amount      |
|------------------------|--------------------------------------|-----------------|
| General                | Gas (Tax Equivalents)                | \$<br>229,300   |
|                        | Water and Sewer (Tax Equivalents)    | 663,500         |
|                        | Electric (Tax Equivalents)           | 1,192,701       |
|                        | Cemetery Trust (Per Trust Agreement) | 30,269          |
| Cemetery Trust         | General (Per Trust Agreement)        | 37,650          |
| School General Purpose | Debt Service (School Debt)           | 1,701,220       |
| Total                  | 426                                  | \$<br>3,854,640 |
|                        |                                      |                 |

Interfund transfers occur in the normal course of business activities.

#### **G. Industrial Park Property**

The City of Dyersburg has purchased several parcels of industrial property in an equal partnership with the County of Dyer, Tennessee. When the property is sold, the County of Dyer receives one-half of the net proceeds from the sales after allowance has been made for reimbursement to the City for costs of developing the property, if any. At June 30, 2020, approximately 308 acres of undeveloped industrial park property is owned jointly by these two governmental bodies.

#### H. Closure and Postclosure Care Costs

State and Federal laws and regulations require that the City place a final cover on its landfill when closed and perform certain maintenance and monitoring functions at the landfill site for thirty years after closure. In addition to operating expenses related to current activities of the landfill, an expense provision and related liability are being recognized based on the future closure and postclosure care costs that will be incurred near or after the date the landfill no longer accepts waste. At June 30, 2020, the estimated remaining useful life of the landfill was 55 years.

The recognition of the landfill closure and postclosure care costs is based on the amount of the landfill used during the year. The estimated liability for landfill closure and postclosure care costs has a balance of \$1,787,000 as of June 30, 2020, which is based on 31.1% usage (filled) of the landfill. It is estimated that an additional \$3,951,743 will be recognized as closure and postclosure care expenses between the date of the statement of net position and the date the landfill is expected to be filled to capacity. The estimated total current cost of the landfill closure and postclosure care (\$5,738,743) is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, and maintain the landfill were acquired as of June 30, 2020. However, the actual cost of closure and postclosure care may be higher due to inflation, changes in technology, or changes in landfill laws and regulations.

The City is required by state and Federal laws and regulations to make annual contributions to finance closure and postclosure care. At June 30, 2020, the City has \$332,300 on deposit for the funding of this liability. The City has executed contracts in lieu of performance bonds with the State of Tennessee in the sum of \$6,002,918 which states that the City shall properly operate the solid waste facility and perform closure of the facility in accordance with all requirements of the permit and the closure/postclosure plan pursuant to all applicable laws and regulations. Failure of the City to perform would entitle the State of Tennessee to collect any state funds disbursed to the City for the cost of any violations.

Once the City funds the closure/postclosure liability, it would be anticipated that future inflation costs would be financed in part from earnings on investments held by the trustee. The remaining portion of anticipated future inflation costs (including inadequate earnings on investments, if any) and additional costs that might arise from changes in postclosure requirements (due to changes in technology or more rigorous environmental regulations, for example) may need to be covered by charges to future landfill users, taxpayers, or both.

#### I. Fair Value Measurements

Each fiduciary fund of the City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The funds have the following recurring fair value measurements:

#### **Dyersburg City Schools**

As of December 31, 2019:

|   |                 |    | Using:   |    |  |    |   |
|---|-----------------|----|--|----|--|----|---|
|   | <br>Total       |    | Quoted Prices<br>in Active<br>Markets for<br>Identical Assets<br>(Level 1) |    | Significant Other<br>Observable<br>Inputs<br>(Level 2) |    | gnificant<br>observable<br>Inputs<br>Level 3) |
| Investments by fair value level:<br>Debt securities   |                 |    |  |    |  |    |   |
| Pooled separate accounts - fixed<br>Equity securities | \$<br>451,383   | \$ | • <sup>2</sup>   | \$ | 451,383  | \$ | -2  |

Equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

#### V. Other Information

#### A. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the City. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

#### **Dyersburg City Schools**

During the year ended June 30, 2020, the School obtained insurance from the Tennessee School Board Liability Trust (TSBLT), which is a public entity risk pool established to provide insurance coverage to local School boards in Tennessee. The Board pays an annual premium to TSBLT for insurance. The creation of TSBLT provides for it to be self-sustaining through member premiums. The TSBLT reinsures through commercial insurance companies for claims in excess of \$100,000 for each insured event.

It is the policy of the School Board to purchase commercial insurance for the risks of losses to which it is exposed, other than those risks noted above. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

#### Dyersburg Electric System

The Electric System is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets, errors and omissions and natural disasters for which the System carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

#### Other City Segments

The City through the City of Dyersburg Healthcare Network provides City employees with self-funded healthcare coverage. The City entered an agreement with Underwriters Safety & Claims, Inc. for claims administration and payment. Claims in excess of a self-insured aggregate limit of \$3,601,751 and specific underlying coverage of \$100,000 per employee was covered through third party insurance policies. Revenues are recognized from payroll deductions for employee dependent coverage and from City contributions for employee coverage. There were no reductions in insurance coverage, and claims paid in excess of self-insured limits have been reimbursed to the City or recorded as a receivable at June 30, 2020.

The City is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions and natural disasters for which the City carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

#### **B.** Concentration of Credit Risk

The City bills local property owners for property taxes and customers of the Enterprise Funds for utility services. At June 30, 2020, these property owners and customers are indebted to the City as noted on the Balance Sheet and Statement of Net Position of the General and Proprietary Funds. The majority of the property owners and customers are local businesses or individuals. The property is subject to foreclosure in the event of non-payment after certain legal requirements are met. The utility services are sold to the customers without requiring any collateral although deposits are required in certain situations. The ability of customers to pay is dependent upon the economic conditions of the area.

#### C. Pending or Threatened Litigation

At June 30, 2020 Dyersburg Electric had no litigation or pending litigation.

At June 30, 2020 Dyersburg City Schools had no litigation or pending litigation.

At June 30, 2020 the City of Dyersburg is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the City's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the City.

#### **D. Contingent Liabilities**

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

#### E. Employee Retirement Systems and Pension Plans

#### **Dyersburg City Schools**

1. Teachers Legacy Plan

*Plan Description.* The Tennessee Consolidated Retirement System (TCRS) was created by state statute under Tennessee Codes Annotated Title 8, Chapters 34-37. The TCRS Board of Trustees is responsible for the proper operation and administration of all employer pension plans in the TCRS. The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS. The TCRS issues a publicly available financial report that can be obtained at <u>https:treasury.tn.gov/Retirement/Boards-and-Governance/Reporting-and-Investment-Polices</u>. Teachers employed by Dyersburg City Schools with membership in the TCRS before July 1, 2014 are provided with pensions through the Teacher Legacy Pension Plan, a cost sharing multiple-employers pension plan administered by the TCRS. The Teacher Legacy Pension Plan closed to new membership on June 30, 2014, but will continue providing benefits to existing members and retirees. Beginning July 1, 2014, the Teacher Retirement Plan became effective for teachers employed by Local Education Agencies (LEAs) after June 30, 2014. The Teacher Retirement Plan is a separate cost-sharing, multiple-employer defined benefit plan.

Benefits Provided. Tennessee Code Annotated Title 8, Chapters 34-37 establishes the benefit terms and can be amended only by the Tennessee General Assembly. Members of the Teacher Legacy Pension Plan are eligible to retire with an unreduced benefit at age 60 with 5 years of service credit or after 30 years of service credit regardless of age. Benefits are determined by a formula using the member's highest five consecutive year average compensation and the member's years of service credit. A reduced early retirement benefit is available at age 55 and vested. Members are vested with five years of service credit. Service related disability benefits are provided regardless of length of service. Five years of service is required for non-service related disability eligibility. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced 10 percent and include projected service credits. A variety of death benefits are available under various eligibility criteria. Member and beneficiary annuitants are entitled to automatic cost of living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to the 2nd of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at 3 percent, and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent COLA is granted if the CPI change is between one-half percent and one percent. A member who leaves employment may withdraw their employee contributions, plus any accumulated interest.

*Contributions.* Contributions for teachers are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly. Teachers contribute 5 percent of salary. The Local Education Agencies (LEAs) make employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. By law, employer contributions for the Teacher Legacy Pension Plan are required to be paid. The TCRS may intercept the state shared taxes of the sponsoring governmental entity of the LEA if the required employer contributions are not remitted. Employer contributions by Dyersburg City Schools for the year ended June 30, 2020 to the Teacher Legacy Pension Plan were \$1,096,599 which is 10.63 percent of covered payroll. The employer rate, when combined with members contributions, is expected to finance the costs of benefits earned by members during the year, the cost of administration, as well as an amortized portion of any unfunded liability.

# Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Pension Liabilities (Assets). At June 30, 2020, the Dyersburg City Schools reported an asset of \$3,239,784 for its proportionate share of net pension asset. The net pension asset was measured as of June 30, 2019, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date. Dyersburg City Schools' proportion of the net pension liability was based on Dyersburg City Schools' employer contributions to the pension plan relative to the contributions of all participating LEAs. At the June 30, 2019 measurement date, Dyersburg City Schools' proportion was 0.315099 percent. The proportion measured as of June 30, 2018 was 0.306467 percent.

Pension Expense. For the year ended June 30, 2020, Dyersburg City Schools recognized pension expense of \$422,150.

Deferred Outflows of Resources and Deferred Inflows of Resources. For the year ended June 30, 2020, Dyersburg City Schools reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | Deferred<br>Outflows of<br>Resources | Deferred<br>Inflows of<br>Resources |
|---|--------------------------------------|-------------------------------------|
| Differences between expected and actual experience                              | \$ 157,737                           | \$ 1,978,925                        |
| Changes in assumptions  | 436,578                              | -                                   |
| Net difference between projected and actual earning on pension plan investments | -                                    | 925,669                             |
| Changes in proportion of Net Pension<br>Liability (asset)                       | 52,574                               | 42,083                              |
| LEAs contributions subsequent to the measurement date of June 30, 2017          | 1,096,599                            | <u>N/A</u>                          |
| Total   | \$ 1,743,488                         | \$ 2,946,677                        |

Dyersburg City Schools employer contributions of \$1,096,599, reported as pension related deferred outflows of resources, subsequent to the measurement date, will be recognized as an increase in net position asset in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Years Ending June 30: |                 |
|-----------------------|-----------------|
| 2021                  | \$<br>(671,257) |
| 2022                  | (906,717)       |
| 2023                  | (413,133)       |
| 2024                  | (308,681)       |
| 2025                  | 1               |
| Thereafter            | -               |

In the table above, positive amounts will increase pension expenses, while negative amounts will decrease pension expenses.

Actuarial assumptions. The total pension liability in the June 30, 2019 actuarial valuation was determined using the

following actuarial assumptions, applied to all periods included in the measurement:

| Inflation                 | 2.5 percent   |
|---------------------------|---|
| Salary Increases          | Graded salary ranges from 8.72 percent to 3.44 percent based on age,<br>including inflation, averaging 4.00 percent |
| Investment rate of return | 7.25 percent, net of pension plan investment expenses, including inflation  |
| Cost-of-Living Adjustment | 2.25 Percent  |

Mortality rates were based on actuarial experience including an adjustment for some anticipated improvement.

The actuarial assumptions used in the June 30, 2019 actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2012 through June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2016 actuarial experience study. A blend of future capital market projections and historical market returns was used in a building-block method in which a best-estimate of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) is developed for each major asset class. These best-estimates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.5 percent. The best-estimates of geometric real rates of return and the TCRS investment policy target asset allocation for each major asset class are summarized in the following table:

.

| Asset Class                           | Target<br>Allocation | Long-Term<br>Expected<br>Real Rate of<br>Return |
|---------------------------------------|----------------------|---|
| U.S. Equity                           | 31%                  | 5.69%   |
| Developed market international equity | 14%                  | 5.29%   |
| Emerging market international equity  | 4%                   | 6.36%   |
| Private equity and strategic lending  | 20%                  | 5.79%   |
| U.S. fixed income                     | 20%                  | 2.01%   |
| Real Estate                           | 10%                  | 4.32%   |
| Short-term securities                 | 1%                   | 0.00%   |
| Total                                 | 100%                 |   |

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 7.25 percent based on a blending of the three factors described above.

Discount Rate. The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current rate and that contributions from LEAs will be made at the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by the state statute. based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the proportionate share of net pension liability (asset) to changes in the discount rate. The following presents Dyersburg City school' proportionate share of the net pension liability (asset) calculated using the discount rate of 7.25 percent, as well as what Dyersburg City Schools' proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate.

#### Dyersburg City Schools' Proportionate Share of the Net Pension Liability (Asset)

| 1% Decrease (6.25%)           | \$ 6,624,423   |
|-------------------------------|----------------|
| Current Discount Rate (7.25%) | \$ (3,239,784) |
| 1% Increase (8.25%)           | \$(11,086,488) |

Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in the separately issued TCRS financial report.

Payable to the pension plan. At June 30, 2020, the Dyersburg City Schools Board of Education reported a payable of \$131,862 for the outstanding amount of contributions due to TCRS for the year.

#### 2. Teacher Retirement Plan (TCRS)

Plan Description. The Tennessee Consolidated Retirement System (TCRS) was created by state statute under Tennessee Codes Annotated Title 8, Chapters 34-37. The TCRS Board of Trustees is responsible for the proper operation and administration of all employer pension plans in the TCRS. The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS. The TCRS issues a publicly available financial report that can be obtained at <a href="https://treasury.tn.gov/Retirement/Boards-and-Governance/Reporting-and-Polices">https://treasury.tn.gov/Retirement/Boards-and-Governance/Reporting-and-Polices</a>. Teachers employed by Dyersburg City Schools with membership in the TCRS before July 1, 2014 are provided with pensions through the Teacher Legacy Pension Plan, a cost sharing multiple-employers pension plan administered by the TCRS. The Teacher Legacy Pension Plan closed to new membership on June 30, 2014, but will continue providing

the TCRS. The Teacher Legacy Pension Plan closed to new membership on June 30, 2014, but will continue providing benefits to existing members and retirees. Beginning July 1, 2014, the Teacher Retirement Plan became effective for teachers employed by Local Education Agencies (LEAs) after June 30, 2014. The Teacher Retirement Plan is a separate cost-sharing, multiple-employer defined benefit plan.

Benefits Provided. Tennessee Code Annotated Title 8, Chapters 34-37 establishes the benefit terms and can be amended only by the Tennessee General Assembly. Members of the Teacher Retirement Plan are eligible to retire at age 65 with 5 years of service credit or pursuant to the rule of 90 in which the member's age and service credit total 90. Members are entitled to receive unreduced service retirement benefits which are determined by a formula using the member's highest five consecutive year average compensation and the member's years of service credit. Service related disability benefits are provided regardless of length of service. Five years of service is required for non-service related disability eligibility. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced 10 percent and include projected service credits. A variety of death benefits are available under various eligibility criteria. Member and beneficiary annuitants are entitled to automatic cost of living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to the 2nd of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at 3 percent, and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent COLA is granted if the CPI change is between one-half percent and one percent. A member who leaves employment may withdraw their employee contributions, plus any accumulated interest. Under the Teacher Retirement Plan, benefit terms and conditions, including COLA, can be adjusted on a prospective basis. Moreover, there are defined cost controls and unfunded liability controls that provide for the adjustment of benefit terms and conditions on an automatic basis.

Contributions. Contributions for teachers are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly. Teachers contribute 5 percent of salary. The Local Education Agencies (LEAs) make employer contributions at the rate set by the Board of Trustees as determined by and actuarial valuation. Per the statutory provisions governing the TCRS, the employer contribution rate cannot be less than 4 percent, except for in years when the maximum funded level, approved by the TCRS Board of Trustees By law, employer contributions for the Teacher Retirement Plan are required to be paid. The TCRS may intercept the state shared taxes of the sponsoring governmental entity of the LEA if the required employer contributions are no remitted. Employer contributions for the year ended June 30, 2020 to the Teacher Retirement Plan were \$46,646, which is 2.03 percent of covered payroll. The employer rate, when combined with members contributions, is expected to finance the cost of benefits earned by members during the year, the cost of administration, as well as amortized portion of any unfunded liability.

# Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Pension Assets. At June 30, 2020, Dyersburg City Schools reported an asset of \$103,140 for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2019, and the total pension asset used to calculate the net pension asset was determined by an actuarial value as of that date. Dyersburg City Schools' proportion of the net pension asset was determined by an actuarial value as of that date. Dyersburg City Schools' proportion of the net pension asset was determined by an actuarial value as of that date. Dyersburg City Schools' proportion of the net pension asset was based on Dyersburg City Schools' share of contributions to the pension plan relative to the contributions of all participating LEAs. At the measurement date of June 30, 2019, Dyersburg City Schools' proportion was 0.182715 percent. The proportion measured at June 30, 2018 was 0.193774 percent.

Pension Expense. For the year ended June 30, 2020, Dyersburg City Schools recognized pension expense of \$33,040.

Deferred Outflows of Resources and Deferred Inflows of Resources. For the year ended June 30, 2020, Dyersburg City Schools reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | Out | eferred<br>flows of<br>sources | In | eferred<br>flows of<br>sources |
|---|-----|--------------------------------|----|--------------------------------|
| Difference between expected and actual experience   | \$  | 4,277                          | \$ | 18,005                         |
| Net difference between projected and actual<br>earnings on pension plan investments       |     | -                              |    | 4,361                          |
| Changes in assumptions  |     | 3,584                          |    | -                              |
| Changes in net proportion of net pension liability  |     | 7,689                          |    | -                              |
| Dyersburg City School's contributions subsequent to the measurement date of June 30, 2015 |     | 46,646                         |    | N/A                            |
|   | \$  | 62,196                         | \$ | 22,366                         |

Dyersburg City Schools' employer contributions of \$46,646 reported as pension related deferred outflows of resources, subsequent to the measurement date, will be recognized as a reduction in net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

#### Year Ended June 30:

| 2021       | \$<br>(1,516) |
|------------|---------------|
| 2022       | (2,183)       |
| 2023       | (960)         |
| 2024       | (336)         |
| 2025       | (158)         |
| Thereafter | (1,663)       |

In the table above, positive amounts will increase pension expense, while negative amounts will decrease pension expense.

Actuarial assumptions. The total pension liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement.

| Inflation                 | 2.5 percent  |
|---------------------------|--|
| Salary increases          | Graded salary ranges from 8.72 to 3.44 percent based on age, including inflation, averaging 4.00 percent |
| Investment rate of return | 7.25 percent, net of pension plan investment expenses, including inflation                               |
| Cost-of-Living Adjustment | 2.25 percent   |

Mortality rates were based on actuarial experience including an adjustment for some anticipated improvement.

The actuarial assumptions used in the June 30, 2019 actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2012 through June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2016 actuarial experience study. A blend of future capital market projections and historical market returns was used in a building-block method in which a best-estimate of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) is developed for each major asset class. These best-estimates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.5 percent. The best-estimates of geometric real rates of return and the TCRS investment policy target asset allocation for each major asset class are summarized in the following table:

|                                       | Long-Term Expected Real |                   |
|---------------------------------------|-------------------------|-------------------|
| Asset Class                           | Rate of Return          | Target Allocation |
| U.S. Equity                           | 5.69%                   | 31%               |
| Developed market international equity | 5.29%                   | 14%               |
| Emerging market international equity  | 6.36%                   | 4%                |
| Private equity and strategic lending  | 5.79%                   | 20%               |
| U.S. fixed income                     | 2.01%                   | 20%               |
| Real estate                           | 4.32%                   | 10%               |
| Short-term securities                 | 0.00%                   | 1%                |
|                                       |                         | 100%              |

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 7.25 percent based on a blending of the three factors described above.

Discount Rate. The discount rate used to measure the total liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current rate and that contributions from the LEAs will be made at the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by state statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of Net Pension Liability (asset) to Changes in the Discount Rate. The following presents Dyersburg City Schools' proportionate share of the net pension liability (asset) calculated using the discount rate of 7.25 percent, as well as what Dyersburg City Schools' proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate.

|   | Current                                  |                          |                        |  |
|---|--|--------------------------|------------------------|--|
|   | 1% Decrease<br>(6.25%)                   | Discount Rate<br>(7.25%) | 1% Increase<br>(8.25%) |  |
| Dyersburg City Schools'<br>proportionate share of the net | <u>,                                </u> | <b>.</b> .               |                        |  |
| pension liability (asset)                                 | \$32,679                                 | (\$103,140)              | (\$203,536)            |  |

Pension Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in a separately issued TCRS financial report.

Payable to the Pension Plan. At June 30, 2020, the Dyersburg City Schools Board of Education reported a payable of \$13,256 for the outstanding amount of contributions due to TCRS Hybrid Plan for the year.

#### **TCRS Stabilization Trust**

Legal Provisions. The Dyersburg City Schools is a member of the Tennessee Consolidated Retirement System (TCRS) Stabilization Reserve Trust. The School System has placed funds into the irrevocable trust as authorized by statute under *Tennessee Code Annotated (TCA)*, Title 8, Chapters 34-37. The TCRS Board of Trustees is responsible for the proper operation and administration of the trust. Funds of trust members are held and invested in the name of the trust for the benefit of each member. Each member's funds are restricted for the payment of retirement benefits of that member's employees. Trust funds are not subject to the claims of general creditors of the School Department.

The trust is authorized to make investments as directed by the TCRS Board of Trustees. The Dyersburg City Schools may not impose any restrictions on investments placed by the trust on their behalf.

Investment Balances. Assets of the TCRS, including the Stabilization Reserve Trust, are invested in the Tennessee retiree Group Trust (TRGT). The TRGT is not registered with the Securities and Exchange Commission (SEC) as an investment company. The State of Tennessee has not obtained a credit quality rating for the TRGT from a nationally recognized credit ratings agency. The fair value of investment positions in the TRGT is determined daily based on the fair value of the pool's underlying portfolio. Furthermore, TCRS had not obtained or provided any legally binding guarantees to support the value of participant shares during the fiscal year. There are no restrictions on the sale or redemption of shares.

Investments are reported at fair value or amortized which approximates fair value. Securities traded on a national exchange are valued at the last reported sales price. Investment income consists of realized and unrealized appreciation (depreciation) in the fair Securities and securities transactions are recorded in the financial statements on a trade-date-basis. The fair value of assets of the TRGT held at June 30, 2019, represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Assets held are categorized for fair value measurement within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset and give the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements.

• Level 1 - Unadjusted quoted prices for identical assets or liabilities in active markets that can be accessed at the measurement date.

• Level 2 - Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; assets or liabilities that have a bid-ask spread price in an inactive dealer market, brokered market and principal-to-principal market; and Level 1 assets or liabilities that are adjusted.

• Level 3 - Valuations derived from valuation techniques in which significant inputs are unobservable.

Investments using the Net Asset Value ("NAV") per share have no readily determinable fair value and have been determined using amortized cost which approximate fair value.

Where inputs used in the measurement of fair value fall into different levels of the hierarchy, fair value of the instrument in its entirety is categorized based on the lowest level input that is significant to the valuation. This assessment requires professional judgement and as such management of the TRGT developed a fair value committee that worked in conjunction with the plan's custodian and investment professionals to make these valuations. All assets held were valued individually and aggregated into classes so to be represented in the table below.

Short-term securities generally include investments in money market-type securities reported at cost plus accrued interest.

Equity and equity derivative securities classified in Level 1 are valued using last reported sales prices quoted in active markets that can be accessed at the measurement date. Equity and equity derivative securities classified in Level 2 are securities whose values are derived daily from associated traded securities. Equity securities classified in Level 3 are valued with last trade data having limited trading volume.

US Treasury Bills, Bonds, Notes and Futures classified in Level 1 are valued using last reported sales prices quoted in active markets that can be accessed at the measurement date. Debt and debt derivative securities classified in Level 2 are valued using a bid-ask spread price from multiple independent brokers, dealers, or market principals, which are known to be actively involved in the market. Level 3 debt securities are valued using proprietary information, a single pricing source, or other unobservable inputs related to similar assets or liabilities.

Real estate investments classified in Level 3 are valued using the last valuations provided by external investment advisors or independent external appraisers. Generally, all direct real estate investments are appraised by a qualified independent appraiser(s) with the professional designation of Member of the Appraisal Institute ("MAI"), or its equivalent, every three (3) years beginning from the acquisition date of the property. The appraisals are performed using generally accepted valuation approaches applicable to the property type. Investments in private mutual funds, traditional private equity funds, strategic lending funds and real estate funds that report using GAAP, the fair value, as well as the unfunded commitments, were determined using the prior quarter's NAV, as reported by the fund managers, plus the current cash flows. These assets were then categorized by investment strategy. In instances where the fund investment reported using non-GAAP standards, the investment was valued using the same method, but was classified in Level 3.

At June 30, 2020, the Dyersburg City Schools had the following investments held by the trust on its behalf:

| Asset Class                           | Percentage<br>Target<br>Allocations | Stabilization<br>Trust<br>Allocation |        |  |
|---------------------------------------|-------------------------------------|--------------------------------------|--------|--|

*Risks and Uncertainties.* The trust's investments include various types of investment funds, which in turn invest in any combination of stocks, bonds and other investments exposed to various risks, such as interest rate, credit and market risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported for trust investments.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Dyersburg City Schools does not have the ability to limit trust investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Dyersburg City Schools does not have the ability to limit the credit ratings of individual investments made by the trust.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of the county's investment in a single issuer. Dyersburg City Schools places no limit on the amount the county may invest in one issuer.

Custodial Credit Risk. Custodial credit risk for investments is the risk that, in the event of a failure of the counterparty to a transaction, the county will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Pursuant to the trust agreement, investments are held in the name of the trust for the benefit of the Dyersburg City Schools to pay retirement benefits of the School Department employees.

For further information concerning the School System's investments with the TCRS Stabilization Reserve Trust, audited financial statements of the Tennessee Consolidated Retirement System may be observed at <a href="https://www.https:comptroller.tn.gov/content/dam/cot/sa/advanced-search/disclaimer/2020/ag19091.pdf">https://www.ht

3. Non-Professional Employees' Pension Plan

Plan Description. The Dyersburg City Schools Retirement Plan (DCSRP) is a single-employer defined benefit retirement plan administered by the Dyersburg City Schools' Board of Education for employees of the Dyersburg City Schools. The plan was established by statute. With the exception of maximum contribution rates, which are set forth in the statutes, required contributions and benefit provisions are established and amended by the Dyersburg City Schools Board of Education.

The Dyersburg City Schools Retirement Plan issues a publicly available report that can be obtained by contacting the Dyersburg City Schools Board of Education.

Benefits Provided. DCSRP provides retirement, disability, and death benefits to plan members and their beneficiaries. Monthly retirement benefits are calculated as 1.75 percent of an employee's final 5-year average salary times years of service. Employees with 10 years of continuous service are eligible to retire at age 60. Employees may retire at any age after 30 years of service. Disability retirement benefits are determined in the same manner as retirement benefits but are payable immediately at an amount equal to 90% of the participant's accrued benefit. Death benefits equal two times the employee's final full-year salary. An employee who leaves service may withdraw his or her contributions, plus any accumulated interest.

Benefit terms provide for annual cost-of-living adjustments to each employee's retirement allowance subsequent to that employee's retirement date. Annual adjustments equal one-half of the change in the Consumer Price Index, limited to a maximum increase in retirement allowance of 3 percent.

At December 31, 2019, the following employees were covered by the Plan:

| Active employees   | 100 |
|--|-----|
| Inactive employees or beneficiaries currently receiving benefits | 44  |
| Inactive employees entitled to but not yet receiving benefits    | 5   |
|  | 149 |

Contributions. Required contributions are determined by the Dyersburg City Schools Board of Education based on actuarial calculations performed by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employee contributions are based on the employee's annual covered salary. For the year ended December 31, 2019, the employee contribution rate was 5%. The Dyersburg City Schools' Board of Education is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. However, per statute, the Dyersburg City Schools' contribution rate may not exceed 15 percent of covered payroll. The Dyersburg City Schools' contribution rate and required contribution for the year ended December 31, 2019 were 9.01 percent and \$227,068, respectively. Actual contributions for the year equaled \$271,548, or 119.59% of required contributions.

Net Pension Liability. The Dyersburg City Schools' net pension liability was measured as of December 31, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Actuarial valuation method | Entry age normal, with level dollar amortization                  |
|----------------------------|---|
| Salary increases           | 4.0 percent, including inflation                                  |
| Investment rate of return  | 7.00 percent, net of Plan investment expense, including inflation |

The actuarial assumptions used in the December 31, 2019 valuation were based on the results of an actuarial experience study as of January 1, 2019. In addition, mortality rates were based on the 2018 TCRS Non-teacher mortality (RP-2014 Blue Collar Mortality, loaded 102% for males and 97% for females, and MP-2017 Mortality Improvement Scale from 2017 and 2024).

Discount Rate. The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in School's Net Pension Liability. Changes in the Dyersburg City Schools' net pension liability for the year ended December 31, 2019 were as follows:

## Schedule of Changes in Net Pension Liability, Deferrals, & Pension Expense - Non Professional Plan

|  | Increase (Decrease)               |                             |                                       |
|--|-----------------------------------|-----------------------------|---------------------------------------|

| Post-measurement contribution                      |                                   |                             | -                                     |
| Other changes                                      |                                   |                             | -                                     |
| Amortization of or change in beginning balances    |                                   |                             | -                                     |
| Net changes  | 351,398                           | 1,007,413                   | (656,015)                             |
| Balances at 12/31/2019                             | \$ 8,734,867                      | \$ 6,486,539                | \$ 2,248,328                          |

Determination of Net Pension Liability. The components of the net pension liability at December 31, 2019 were as follows:

|   | December 31, 2019 |
|---|-------------------|
| Total Pension Liability (7.00%)                               | \$ 8,734,867      |
| Plan Fiduciary Net Position                                   | (6,486,539)       |
| Net Pension Liability   | \$ 2,248,328      |
| Plan Fiduciary Net Position as a % of Total Pension Liability | 74.26%            |

Sensitivity of Net Pension Liability to Discount Rate. The following represents the net pension liability calculated using the stated discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

|                       | 1% Decrease | Current Rate | 1% Increase |
|-----------------------|-------------|--------------|-------------|
| 2                     | (6.00%)     | (7.00%)      | (8.00%)     |
| Net Pension Liability | \$3,226,264 | \$2,248,328  | \$1,420,990 |

Plan Fiduciary Net Position. Detailed information about the Plan's fiduciary net position is available in the separately issued Dyersburg City Schools Retirement Plan financial report.

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources. For the year ended June 30, 2020, the Dyersburg City schools recognized pension expense of \$344,941. At June 30, 2020, the Dyersburg City Schools reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | C<br>Ou<br>Re | Deferred<br>Inflows of<br>Resources |    |         |
|--|---------------|-------------------------------------|----|---------|
| Differences between expected and actual experience   | \$            | 15,745                              | \$ | 10,821  |
| Changes of assumptions                               |               | 97,686                              |    | -       |
| Net difference between projected and actual earnings |               |                                     |    |         |
| on Plan investment                                   |               | -                                   |    | 216,549 |
| Dyersburg City School's contributions subsequent to  |               |                                     |    |         |
| the measurement date of December 31, 2018            |               | 159,802                             |    | -       |
| Total  | \$            | 273,233                             | \$ | 227,370 |
|  | -             |                                     | _  |         |

Contributions subsequent to the measurement date will be recognized in the following year.

Amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

| Year ending June 30, |      |        |
|----------------------|------|--------|
| 2021                 | \$ ( | 8,283) |
| 2022                 | (1-  | 4,423) |
| 2023                 | 2    | 6,863  |
| 2024                 | (11  | 8,096) |
| 2025                 |      | -      |
| Thereafter           |      | -      |

Payable to DCSRP. At June 30, 2020, the Dyersburg City Schools Board of Education reported a payable of \$34,994 for the outstanding amount of contributions due to DCSRP for the year.

Defined Contribution Component of the Hybrid Plan. Upon first becoming a public school teacher in the Hybrid Plan, 2% of the employee's compensation will be deferred automatically into the defined contribution component of the Hybrid Plan unless the employee makes an affirmative election not to contribute. The System will make a contribution to the defined contribution component of the plan on behalf of each member which equals to 5% of the member's compensation, regardless of whether the member makes any employee contribution. The 5% employer contribution rate is established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly. Employees immediately vest in the employee and employer contributions to the defined contribution portion of the Hybrid Plan. During the fiscal year 2020, the System contributed a total of \$114,892 into the defined contribution portion of the Hybrid Plan. There were no forfeitures during the year ended June 30, 2020. At June 30, 2020, the Dyersburg City Schools Board of Education reported a payable of \$17,095 for the outstanding amount of contributions due to TCRS for the year.

### **Dyersburg Electric System**

The Retirement Committee accounts for the activity of the Dyersburg Electric System Defined Benefit Plan and the Dyersburg Electric System 401(a) Defined Contribution Plan. The first is a defined benefit single-employer public employee retirement system (PERS). The second is defined contribution PERS.

### 1. Defined Benefit Plan

*Plan Description.* All employees of the system were eligible to participate following the attainment of age 21 and the completion of three (3) years of service. On December 19, 2012 the Power Board adopted resolutions to discontinue new participants in to the existing defined benefit plan and established the new defined contribution retirement plan. Employees hired or rehired after December 31, 2012 and meeting the eligibility requirements participate in the Defined Contribution Plan, and existing participants in the Defined Benefit Plan may elect to participate in the defined contribution plan provided they discontinue participation in the Defined Benefit Plan. This plan is administered by Dyersburg Electric System. Any amendments to the Defined Benefit Plan would be initiated by the System's Board.

Plan participants. At January 1, 2019 valuation, pension plan participants consisted of the following:

| Active plan participants (vested and non-vested)                         | 31 |
|--|----|
| Inactive plan participants or beneficiaries currently receiving benefits | 6  |
| Total  | 37 |

As of December 31, 2012, the plan is closed to new entrants.

Benefits Provided. The Defined Benefit Plan provides retirement benefits as well as death and disability benefits. The Defined Benefit Plan benefit formula accrual rate is 2.0% per year of service. Retirement benefits begin vesting after five (5) years of service and are completely vested after fifteen (15) years of service. Employees may retire after age 55 and the completion of ten (10) years of service with a reduction for early commencement. There is no reduction if the employees' age plus years of service is 85 or greater. The normal retirement date is the first day of the month following the participant's attainment of age 65.

*Contributions.* Effective July 1, 2016, employees are required to contribute 3% of compensation. Dyersburg Electric System intends to contribute amounts necessary to fund the Plan, as determined by the Actuary. For the year ended June 30, 2019, the system's contribution rate was 25.2% of covered-employee payroll.

Investment Policy. The following was the Plan's adopted asset allocation policy as of June 30, 2019, as provided by the Plan's investment advisor.

| Asset Class   | Target<br>Allocation | Long-Term Expected<br>of Return* | Rate | Weighting    |
|---|----------------------|----------------------------------|------|--------------|
| US Equity - Large Cap   | 18%                  | 6.10%                            |      | 1.10%        |
| US Equity - Small/Mid Cap   | 18%                  | 7.46%                            |      | 1.34%        |
| Non-US Equity - Developed   | 10%                  | 6.81%                            |      | 0.68%        |
| Non-US Equity - Emerging  | 5%                   | 9.23%                            |      | 0.46%        |
| US Corporate Bonds - Core   | 21%                  | 2.10%                            |      | 0.44%        |
| US Corporate Bonds - High Yield   | 7%                   | 3.86%                            |      | 0.27%        |
| Non-US Debt - Developed   | 7%                   | 1.05%                            |      | 0.07%        |
| US Treasuries (Cash Equivalents)  | 5%                   | 0.60%                            |      | 0.03%        |
| Real Estate   | 6%                   | 5.06%                            |      | 0.30%        |
| Hedge Funds   | 3%                   | 4.03%                            |      | 0.12%        |
| The second the second | 100%                 |                                  |      | 4.81%        |
| Lon-term inflation assumption   |                      |                                  |      | <u>2.47%</u> |
| Long-term expected nominal rate of retain   | um                   |                                  |      | 7.28%        |

\*Long-term real rates of return were provided by Stifel Investment Advisory Services. Returns are arithmetic means.

*Rate of return.* For the year ended June 30, 2019, the annual money-weighted rate of return on pension investments, net of pension plan investment expenses, was 6.1%. The money-weighted rate of return expresses investment performance, net of investment expenses, adjusted for the changing amounts actually invested.

Net Pension Liability. The System's net pension liability of \$4,437,519 was measured as of June 30, 2019, and the total pension liability used to calculate net pension liability was determined by an actuarial valuation as of January 1, 2019.

Actuarial assumptions. The total pension liability was determined by an actuarial valuation as of January 1, 2019, using the following actuarial assumptions, applied to all periods included in the measurement. Assumptions were reviewed as part of an experience study for the period January 1, 2010 through December 31, 2014. Please refer to the report, dated August 11, 2015, for further details, We anticipate future experience reviews every five years.

| Disability rates:                                       | 25% of the 1952 Intercompany Dis  | ability Table  |  |  |

The following information was provided by the Plan's investment advisor. The long-term expected rate of return on pension plan investments was determined using an arithmetic basis and a time horizon on 10-15 years. See table under Investment Policy for the analysis of the Long-term Expected Rate of Return on pension Plan Investments.

Discount Rate. The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that the plan and member contributions will be made at the current contribution rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments (6.75%) was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate.

|                       | 1% Decrease<br>(5.75%) | Current<br>Discount<br><u>Rate (6.75%)</u> | 1% Increase<br>(7.75%) |

#### 2. Defined Contribution Plan

Plan Name and Administration. The System's plan name is Dyersburg Electric System 401(a) Defined Contribution Plan. The plan is administered by VOYA Financial Advisors, Inc. The Board of the System is the decision making authority for the plan.

Benefit Terms. All employees of the System are eligible to make contributions to Dyersburg Electric System's 401(a) Defined Contribution Plan after a 6 month probationary period. After the probationary period, the System makes contributions whether or not the employee does. An employee is considered fully vested after the probationary period is met. Benefit terms may only be amended by the Board of the System.

*Contributions.* The Defined Contribution Plan requires the system to contribute 3% of gross wages of employees meeting the eligibility requirements. The system will also match a contribution of an eligible employee (dollar for dollar) up to 4% of gross wages. The employees are not required to contribute any certain amount to the plan. During the year ended June 20, 2020, the system contributed \$21,150 to the defined contribution plan. There were no nonemployer contributions for the year.

Forfeitures. Due to the terms of the contributions being 100% vested immediately, there are never any amounts forfeited.

Payable to Plan. At June 30, 2020, there were no amounts due from the System for contributions to the defined contribution plan.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (income) as follows:

| Years Ending June 30: |               |
|-----------------------|---------------|
| 2021                  | \$<br>202,777 |
| 2022                  | 136,971       |
| 2023                  | 187,407       |
| 2024                  | 130,529       |
| 2025                  | (31,133)      |
| Thereafter            | (659)         |

Payable to Plan. At June 30, 2020, there were no amounts due from the System for contributions to the Defined Benefit Plan.

*Financial Statements for the Pension Plan.* The System's administered plan issued financial statements as of December 31, 2019, which were audited by other auditors and included in this report. The plan financial statements as of June 30, 2019 are as follows:

### **City of Dyersburg Pension Plan**

Plan Description. The City of Dyersburg Pension Board administers the City of Dyersburg Pension Plan, a single employer defined benefit pension plan that provides pensions for all permanent full-time general and public safety employees of the City. The regulations of the City grant the authority to establish and amend the benefit terms to the City of Dyersburg Board of Mayor and Aldermen.

At June 30, 2019, the following employees were covered by the Plan:

| Active employees   | 87  |
|--|-----|
| Inactive employees or beneficiaries currently receiving benefits | 52  |
| Terminated employees entitled to deferred benefits               | 37  |
| Total  | 176 |

Benefits provided. Each participant shall accrue a monthly benefit payable at his/her normal retirement date of two percent (2%) of average monthly compensation per year of credited service, with a maximum of 35 years of credited service. Retirement benefits begin vesting after four (4) years of continuous service and are fully vested after ten (10) years of continuous service. For participants hired before February 1, 1989, the normal retirement date is the first day of the month coinciding with or next following the participant's 60th birthday. The early retirement date is the first day of the month coinciding with or next following the participant's 55th birthday and completion of ten (10) years of continuous service. For participants hired on or after February 1, 1989, the normal retirement date is the first day of the month coinciding with or next following the participant's 55th birthday and completion of ten (10) years of continuous service. For participants hired on or after February 1, 1989, the normal retirement date is the first day of the month coinciding with or next following the participant's 65th birthday and completion of five years of participation in the plan. The early retirement date is the first day of the month coinciding with or next following the participant's 60th birthday and completion of ten years of continuous service. The deferred early retirement benefit, to commence at the participant's normal retirement date, is computed in the same manner as above for normal retirement. Upon written application to the employer, basic retirement benefits may commence immediately upon early retirement; in that event, the benefit is reduced by 0.4% for each month by which the participant's actual retirement date precedes his/her normal retirement date.

*Contributions.* The Regulations of the City grant the authority to establish and amend the contribution requirements of the City and active plan members to the City of Dyersburg Pension Board. The Board establishes rates based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefit earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2020, the average active member contribution rate was 5.0 percent of annual pay, and the City's average contribution rate was 40.48 percent of annual payroll.

The City selected the assumptions and funding methods described below based on the review of plan experience in conjunction with the June 30, 2019 Actuarial Valuation Report. The actuary annually reviews the assumptions and method for reasonableness. Periodically, a complete plan experience study is conducted.

*Investment policy.* The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (3%). Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation are summarized in the following table:

| Asset<br>Class     | Actual<br>Allocation | Long-Term<br>Expected<br>Real Rate of<br>Return |
|--------------------|----------------------|---|
| Domestic Equities  | 63.42%               | 6.25%   |
| Developing Markets | 3.20%                | 6.75%   |
| Fixed Income       | 11.78%               | 1.25%   |
| Real Estate        | 7.71%                | 5.75%   |
| Cash               | 13.89%               | 0.50%   |
| Total              | 100.00%              |   |

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Pension Board by a majority vote of its members. It is the policy of the Pension Board to pursue an investment strategy that reduced risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans.

Discount Rate. 3.56% per annum, compounded annually. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contributions rate of 5% and that employer contributions will continue at approximately 65% of the recommended contribution rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members through June 30, 2028. The long-term expected rate of return on pension plan investments was applied to periods of projected benefit payments through this date, and the municipal bond rate was used for the period thereafter to determine the total pension liability. The discount used to measure the total pension liability on the second basis was 2.98%. This is equivalent to an average assumed rate of return of approximately 3.56%.

Net Pension Liability. The components of the net pension liability at June 30, 2019 were as follows:

| Total Pension Liability     | \$ 24,347,517 |
|-----------------------------|---------------|
| Plan Fiduciary Net Position | (4,438,466)   |
| Net Pension Liability       | \$ 19,909,051 |

Plan Fiduciary Net Position as a Percentage of Total Pension Liability. 18.23%

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following represents the net pension liability calculated using the stated discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

|                       | Discount<br>Rate | Net Pension<br>Liability |
|-----------------------|------------------|--------------------------|
| 1% decrease           | 6.10%            | \$22,367,821             |
| Current discount rate | 7.10%            | \$ 19,909,051            |
| 1% increase           | 8.10%            | \$17,818,138             |

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources. For the year ended June 30, 2019, the recognized pension expense will be (\$789,798). At June 30, 2019, the City reported deferred outflows of resources and deferred inflows of resources relation to pensions from the following sources:

|  | Deferred<br>Outflows of<br>Resources | Deferred<br>Inflows of<br>Resources |
|--|--------------------------------------|-------------------------------------|
| Difference between experience losses (gains)                           | \$ 2,932,387                         | \$ 1,613,254                        |
| Changes of assumptions   | 10,987,045                           | 8,597,851                           |
| Net difference between projected and actual<br>earnings on investments |                                      | 88,994                              |
| Contributions subsequent to the measurement date of 6/30/2019          | 1,765,700                            | <u> </u>                            |
| Total:   | \$ 15,685,132                        | \$ 10,300,099                       |

Contributions after the measurement date of June 30, 2019 will be recognized as a reduction to the net pension liability in the following measurement period.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (income) as follows:

| Years Ending June 30: |                |
|-----------------------|----------------|
| 2020                  | \$ (1,688,776) |
| 2021                  | (1,720,793)    |
| 2022                  | 806,618        |
| 2023                  | 1,862,997      |
| 2024                  | 1,866,750      |
| Thereafter            | 2,492,539      |

#### F. Postemployment Healthcare Plan

#### **Dyersburg City Schools**

#### 1. Closed Teacher Group OPEB Plan

The Schools changed to the Tennessee OPEB plan effective July 1, 2018. The Tennessee OPEB plan uses a measurement date that is one year behind the reporting date. Therefore, there was no new information to report that year. However, the following information is the first year that is available for the plans that were in place with a measurement date of June 30, 2019 and a reporting date of June 30, 2020.

*Plan description.* Employees of Dyersburg City Schools (Schools), who were hired prior to July 1, 2015, are provided with pre-65 retiree health insurance benefits through the closed Teacher Group OPEB Plan (TGOP) administered by the Tennessee Department of Finance and Administration. This plan is considered to be a multiple-employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB). However, for accounting purposes, this plan will be treated as a single-employer plan. All eligible pre-65 retired teachers, support staff and disability participants of local education agencies, who choose coverage, participate in the TGOP. This plan is closed to the employees of all participating employers that were hired on or after July 1, 2015.

Benefits provided. The Schools offer the TGOP to provide health insurance coverage to eligible pre-65 retired teachers, support staff and disabled participants of local education agencies. Insurance coverage is the only postemployment benefit provided to retirees. An insurance committee created in accordance with TCA 8-27-301 establishes and amends the benefit terms of the TGOP. All members have the option of choosing between the premier preferred provider organization (PPO), standard PPO, limited PPO or the wellness healthsavings consumer-driven health plan (CDHP) for healthcare benefits. Retired plan members, of the TGOP, receive the same plan benefits as active employees, at a blended premium rate that considers the cost of all participants. This creates an implicit subsidy for retirees. Participating employers determine their own policy related to direct subsidies provided for the retiree premiums. [Entities should insert language to explain their direct subsidy for pre-65 retiree insurance coverage or the fact that they do not directly subsidize and are only subject to the implicit]. The state, as a governmental nonemployer contributing entity, provides a direct subsidy for eligible retirees premiums, based on years of service. Therefore, retirees with 30 or more years of service will receive 45%, 20 but less then 30 years, 35%; and less than 20 years, 20% of the scheduled premium. No subsidy is provided for enrollees of the healthsavings CDHP. The TGOP is funded on a pay-as-you-go basis and there are no assets accumulating in a trust that meets the criteria of paragraph 4 of GASB Statement No. 75.

Employees Covered by Benefit Terms. At June 30, 2019, the following employees of the Schools were covered by the benefit terms of the plan:

| Inactive employees currently receiving benefit payments | 26  |
|---|-----|
| Active employees not eligible for benefits              | 6   |
| Active employees eligible for benefits                  | 274 |
|   | 306 |

An insurance committee establishes the required payments to the plan by member employers and employees through the blended premiums established for active and retired employees. Claims liabilities of the plan are periodically computed using actuarial and statistical techniques to establish premium rates. Administrative costs are allocated to plan participants. Employers contribute towards employee costs based on their own developed policies. During the current reporting period, the Schools paid \$219,130 to the plan for OPEB benefits as they came due.

Actuarial Assumptions. The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

| Inflation                                | 2.20%  |
|--|--|
| Salary increases                         | Graded salary ranges from 3.44 to 8.72 percent based on<br>age. Including inflation, averaging 4 percent.  |
| Healthcare cost trend rates              | 6.03% for pr-65 in 2019, decreasing annually over a 10 year period to an ultimate rate of 4.53%. 5.20% for post-65 in 2019, decreasing annually over a 4 year period to an ultimate rate of 4.50%.   |
| Retiree's share of benefit-related costs | Members are required to make monthly contributions in order<br>to maintain their coverage. For the purpose of this valuation a<br>weighted average has been used with weights derived from the<br>current distribution of members among plans offered. |

Unless noted otherwise, the actuarial demographic assumptions used in the June 30, 2019, valuations were the same as those employed in the July 1, 2018 Pension Actuarial Valuation of the Tennessee Consolidated Retirement System (TCRS). These assumptions were developed by TCRS based on the results of an actuarial experience study for the period July 1, 2012 - June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience. Mortality tables are used to measure the probabilities of participants dying before and after retirement. The mortality rates employed in this valuation are taken from the RP-2014 Healthy Participant Mortality Table for Annuitants for non-disabled post-retirement mortality, with mortality improvement projected to all future years using Scale MP-2016. Post-retirement tables are Blue Collar and adjusted with a 2% load for males and a -3% load for females. Mortality rates for impaired lives are the same as those used by TCRS and are taken from a gender distinct table published in the IRS Ruling 96-7 for disabled lives with a 10% load.

Discount Rate. The discount rate used to measure the total OPEB liability was 3.51 percent. This rate reflects the interest rate derived from yields on 20-year, tax-exempt general obligation municipal bonds, prevailing on the measurement date, with an average rating of AA/Aa as shown on the Bond Buyer 20-Year Municipal GO AA index.

### Changes in Total OPEB Liability

|   | Total OPEB<br>Liability<br>(a) |
|---|--------------------------------|
| Balance at June 30, 2018  | \$ 3,295,935                   |
| Changes for the year:   |                                |
| Service cost  | -                              |
| Interest cost   | -                              |
| Changes of benefit terms  | 1,618,475                      |
| Differences between expected and actual experience  | -                              |
| Change in assumptions   | -                              |
| Benefit payments  | -                              |
| Net changes   | 1,618,475                      |
| Balance at June 30, 2019  | \$ 4,914,410                   |
| Nonemployer contributing entities proportionate share of the<br>collective total OPEB liability | \$ 1,434,020                   |
| Employer's proportionate share of the collective total OPEB                                     |                                |
| liability   | \$ 3,480,390                   |
| Employer's proportion of the collective total OPEB liability                                    | 70.82%                         |

The Schools have a special funding situation related to benefits paid by the State of Tennessee for its eligible retired employees participating in the TGOP. The School's proportionate share of the collective total OPEB liability was based on a projection of the employers long-term share of benefit payments to the OPEB plan relative to the projected share of benefit payments of al participating employers and nonemployer contributing entities, actuarially determined. The proportion changed -29.18% from the prior measurement date. The Schools recognized \$1,434,020 in revenue for subsidies provided by nonemployer contributing entities for benefits paid by the TGOP for the School's retirees.

*Changes in Assumptions.* The discount rate was changed from 3.62% as of the beginning of the measurement period to 3.51% as of June 30, 2019. This change in assumption decreased the total OPEB liability.

Changes in Benefit Terms. The Schools opted back into the TN OPEB plans for the year beginning July 1, 2018. As such, there was a change in benefit terms to bring the collective OPEB liability in agreement with the actuarial computed liability of \$4,914,410.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate. The following presents the total OPEB liability related to the plan, as well as what the total OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (2.51%) or 1-percentage point higher (4.51%) than the current discount rate:

|                                 |              | Current      |              |
|---------------------------------|--------------|--------------|--------------|
|                                 | 1% Decrease  | Discount     | 1% Increase  |
|                                 | (2.51%)      | Rate (3.51%) | (4.51%)      |
| Proportionate share of          |              |              |              |
| collective total OPEB liability | \$ 3,735,413 | \$ 3,480,390 | \$ 3,238,648 |

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rate. The following presents the total OPEB liability related to the plan, as well as what the total OPEB liability would be if it were calculated using a healthcare cost trend rate that is 1-percentage-point lower (4.00%) or 1-percentage-point higher (6.00%) than the current healthcare cost trend rate:

|                                 |              | Healthcare Cost |              |
|---------------------------------|--------------|-----------------|--------------|
|                                 | 1% Decrease  | Trend Rates     | 1% Increase  |
| Proportionate share of          |              |                 |              |
| collective total OPEB liability | \$ 3,122,357 | \$ 3,480,390    | \$ 3,903,333 |

OPEB Expense. For the fiscal year ended June 30, 2020, the Schools recognized OPEB expense of \$1,618,475.

Deferred Outflows of Resources and Deferred Inflows of Resources. For the fiscal year ended June 30, 2020, the Schools reported deferred outflows of resources and deferred inflows of resources related to OPEB benefits in the TGOP from the following sources:

|   | 1.00 | Deferred<br>utflows of |    | ferred<br>ows of |
|---|------|------------------------|----|------------------|
| Differences between actual and expected experience  | \$   | -                      | \$ | -                |
| Changes of assumptions  |      | -                      |    | -                |
| Changes in proportion and differences between<br>amounts paid as benefits came due and proportionate<br>share certain amounts paid by the employer and<br>nonemployer contributors as the benefits came due |      |                        |    |                  |
| Employer payments subsequent to the measurement   |      |                        |    |                  |
| date  | -    | 219,130                | -  | ÷.               |
|   | \$   | 219,130                | \$ | -                |

Payments subsequent to the measurement date will be recognized in the following year.

### 2. Closed Teacher Group OPEB Plan

*Plan Description.* Employees of Dyersburg City Schools (Schools), who were hired prior to July 1, 2015, are provided with pre-65 retiree health insurance benefits through the closed Tennessee Plan (TNP) administered by the Tennessee Department of Finance and Administration. This plan is considered to be a multiple-employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB). However, for accounting purposes, this plan will be treated as a single-employer plan. All eligible post-65 retired teachers, support staff and disability participants of local education agencies, who choose coverage, participate in the TNP. The TNP also includes eligible retirees of the state, certain component units of the state, and certain local governmental entities. This plan is closed to the employees of all participating employers that were hired on or after July 1, 2015.

Benefits Provided. The state offers the TNP to help fill most of the coverage gaps created by Medicare for eligible post-65 retired teachers and disabled participants of local education agencies. Insurance coverage is the only postemployment benefit provided to retirees. The TNP does not include pharmacy. In accordance with TCA 8-27-209, benefits of the TNP are established and amended by cooperation of insurance committees created by TCA 8-27-201, 8-27-301 and 8-27-701. Retirees and disables employees of the state, component units, local education agencies, and certain local governments who have reached the age of 65, are Medicare eligible and also receives a benefit from the Tennessee Consolidated Retirement System may participate in this plan. All plan members receive the same plan benefits at the same premium rates. participating employers determine their own policy related to subsidizing the retiree premiums. The Schools do not directly subsidize the retiree premiums. The state, as a governmental nonemployer contributing entity contributes to the premiums of eligible retirees of local education agencies based on years of service. Therefore, retirees with 30 years of service receive \$50 per month; 20 but less than 30 years, \$37.50; and 15 but less than 20 years, \$25. The TNP is funded on a pay-as-you-go basis and there are no assets accumulating in a a trust that meets the criteria of paragraph 4 of GASB Statement No. 75.

Employees Covered by Benefit Terms. At June 30, 2019, the following employees of the School were covered by the benefit terms of the plan:

| Inactive employees currently receiving benefit payments            | 101 |
|--|-----|
| Inactive employees entitled but not yet receiving benefit payments | 37  |
| Active employees eligible for benefits                             | 199 |
|  | 337 |

In accordance with TCA 8-27-209, the state insurance committees established by TCAs 8-27-201, 8-27-301 and 8-27-701 determine the required payments to the plan by member employers and employees. Claims liabilities of the plan are periodically computed using actuarial and statistical techniques to establish premium rates. Administrative costs are allocated to plan participants. Employers contribute towards employee costs based on their own developed policies. During the current reporting period, the Schools paid \$0 to the TNP for OPEB benefits as they came due.

Actuarial Assumptions. The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

| Inflation                   | 2.20%   |
|-----------------------------|---|
| Salary increases            | Graded salary ranges from 3.44 to 8.72 percent based on age. Including inflation, averaging 4 percent.  |
| Healthcare cost trend rates | The premium subsidies provided to retirees in the Tennessee<br>Plan are assumed to remain unchanged for the entire projection,<br>therefore trend rates are not applicable. |

Unless noted otherwise, the actuarial demographic assumptions used in the June 30,, 2019, valuations were the same as those employed in the July 1, 2018 Pension Actuarial Valuation of the Tennessee Consolidated Retirement System (TCRS). These assumptions were developed by TCRS based on the results of an actuarial experience study for the period July 1, 2012 - June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience. Mortality tables are used to measure the probabilities of participants dying before and after retirement. The mortality rates employed in this valuation are taken from the RP-2014 Healthy Participant Mortality Table for Annuitants for non-disabled post-retirement mortality, with mortality improvement projected to all future years using Scale MP-2016. Post-retirement tables are Blue Collar and adjusted with a 2% load for males and a -3% load for females. Mortality rates for impaired lives are the same as those used by TCRS and are taken from a gender distinct table published in the IRS Ruling 96-7 for disabled lives with a 10% load.

Discount rate. The discount rate used to measure the total OPEB liability was 3.51 percent. This rate reflects the interest rate derived from yields on 20-year, tax-exempt general obligation municipal bonds, prevailing on the measurement date, with an average rating of AA/Aa as shown on the Bond Buyer 20-Year Municipal GO AA Index.

Total ODED

### Changes in Total OPEB Liability

|   | Total OPEB<br>Liability |
|---|-------------------------|
| Balance at June 30, 2018  | \$ 1,154,547            |
| Changes for the year:   |                         |
| Service cost  | 11,980                  |
| Interest cost   | 41,174                  |
| Changes of benefit terms  |                         |
| Differences between expected and actual experience  | (67,010)                |
| Change in assumptions   | 17,068                  |
| Benefit payments  | (58,753)                |
| Net changes   | (55,541)                |
| Balance at June 30, 2019  | \$ 1,099,006            |
| Nonemployer contributing entities proportionate share of the<br>collective total OPEB liability | \$ 1,009,006            |
| Employer's proportionate share of the collective total OPEB<br>liability                        | \$-                     |
| Employer's proportion of the collective total OPEB liability                                    | 0.00%                   |

The Schools have a special funding situation related to benefits paid by the State of Tennessee for its eligible retired employees participating in the TNP. The School's proportionate share of the collective total OPEB liability was based on a projection of the employers long-term share of benefit payments to the OPEB plan relative to the projected share of benefit payments of all participating employers and nonemployer contributing entities, actuarially determined. The proportion changed 0.00% from the prior measurement date. The Schools recognized \$26,927 in revenue for support provided by nonemployer contributing entities for benefits paid by the TNP for the School's retired employees.

*Changes in Assumptions.* The discount rate was changed from 3.62% as of the beginning of the measurement period to 3.51% as of June 30, 2019. This change in assumption decreased the total OPEB liability.

OPEB Expense. For the fiscal year ended June 30, 2020, the Schools recognized OPEB expense of \$26,927.

Deferred Outflows of Resources and Deferred Inflows of Resources. For fiscal year ended June 30, 2020, the Schools did not have any deferred outflows of resources or deferred inflows of resources related to OPEB benefits in the TNP plan.

## G. Fairview Cemetery Trust Fund

Pursuant to the General Cemetery Act of 1968, the Fairview Cemetery Trust was established by the City in May of 1969. The purpose of the Trust is to provide perpetual "improvement care" of the cemetery grounds as defined in TCA Section 46-102 (11). However, such care shall be furnished only insofar as net income derived from the trust will permit.

In the trust document, the City agrees to deposit in this trust minimum monthly amounts equivalent to one-half the sales price of cemetery lots and mausoleums plus one-half the amounts received for special care of any lot, grave, mausoleum, monument, etc. The trustee is to pay the net income from the trust to the City at regular intervals which are to be not more frequent than quarterly.

#### **H. Tax Abatements**

The City negotiates property tax abatement agreements on an individual basis. The City has tax abatement agreements with several companies in the current fiscal year:

GASB 68 requires a 10 year schedule for this data to be presented starting with the implementation of GASB 68. The information in this schedule is not required to be presented retroactively prior to the implementation date. Please refer to previously supplied data from TCRS GASB website for prior years' data, if needed.

In FY 2019 the School Department placed the actuarially determined contribution rate (1.94%) of covered payroll into the pension plan and placed 2.06 percent of covered payroll into the Pension Stabilization Reserve Trust.

Changes of assumptions. In 2017, the following assumptions were changed: decreased inflation rate from 3.00 percent to 2.50 percent; decreased the investment rate of return from 7.50 percent to 7.25 percent; decreased the cost-of-living adjustment from 2.50 percent to 2.25 percent; decreased salary growth graded ranges from an average of 4.25 percent to an average of 4.00 percent; and modified mortality assumptions.

#### Note to Schedule:

There are no assets accumulating in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75, related to this OPEB plan.

The amounts reported for each fiscal year were determined as of the prior fiscal year-end. The Schools joined the State plans effective July 1, 2019. Therefore, there was no activity for the fiscal year ending June 30, 2019 since the measurement date is one year behind the fiscal year date.

This schedule is intended to display ten years of information. Additional years will be displayed as they become available.

Changes of assumptions. For the measurement date June 30, 2019, the following assumptions were changed: the discount rate decreased from 3.62% to 3.51%; the medical and drug trend rate assumptions were updated to reflect more recent experience as of the measurement date; and a change in expected per capita health claims to reflect more recent information as of the measurement date.

\*As this plan was not subject to GASB No. 67 on 06/30/2013, the beginning value at 06/30/2013 shown here was not previously reported. The liability values the 01/01/2013 data, rolled forward to 07/01/2013, using this year's discount rate of 7.50%.

This is a 10-year schedule; however, the information in this schedule is not required to be presented retroactively. Years will be added to this schedule in future years until 10 years of information is available.

| Covered-employee payroll  | \$ 4,374,710 | \$ 4,600,000 | 4,900,000    | \$ 5,200,000 | \$ 7,700,000 | \$ 800,000   |
| Contributions as a percentage of covered<br>employee payroll            | 32.8%        | 23.90%       | 17.80%       | 40.80%       | 9.50%        | 9.00%        |

This is a 10-year schedule. However, the information in this schedule is not required to be presented retroactively. Years will be added to this schedule in future fiscal years until 10 years of information is available.

The actuarially determined contribution for 2019 was not available as of the report date.

#### **Notes to Schedule**

Valuation date: Actuarially determined contribution rates are calculated as of June 30.

Methods and assumptions used to determine contribution rates:

| Actuarial cost method:         | Entry age normal  |
|--------------------------------|---|
| Amortization method:           | Level dollar, open (not to exceed 10 years)                 |
| Remaining amortization period: | 24  |
| Asset valuation:               | No smoothing period   |
| Inflation                      | 3.0%  |
| Salary increases:              | N/A   |
| Investment rate of return      | 7.5% per annum  |
| Retirement age:                | N/A   |
| Mortality:                     | RP-2000 (Healthy and Disabled) with generational projection |
|                                | per Scale AA for healthy participants                       |
| Cost of living adjustments:    | 1% from age 70 through age 74, then 2.0% after age 75       |

Basis of Presentation: The Schedule of Expenditures of Federal Awards and State Financial Assistance summarizes the expenditures of The City of Dyersburg, Tennessee under the federal award programs and state assistance for the year ended June 30, 2019, and is presented on the accrual basis of accounting. The Schedule of Expenditures of Federal Awards and State Financial Assistance for Dyersburg Electric and Dyersburg City Schools were presented in their separately issued audit reports and, therefore, are not reported here.

Summary of Significant Accounting Policies: Expenditures reported on the schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited to reimbursement. The City has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

### INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Board of Aldermen City of Dyersburg, Tennessee

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Dyersburg, Tennessee, (the City) as of and for the year ended June 30, 2020, and the fiduciary fund of the Dyersburg City Schools Retirement Plan and the fiduciary fund of Dyersburg Electric Retirement Plan for the year ended December 31, 2019, and the fiduciary fund for the City of Dyersburg Pension Plan for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated March 5, 2021. Our report includes a reference to other auditors who audited the financial statements of Dyersburg City Schools, as described in our report on the City's financial statements. This report includes our consideration of the results of the other auditors' testing of internal control over financial reporting and compliance and other matters that are reported on separately by those other auditors. However, this report, insofar as it relates to the results of the other auditors, is based solely on the reports of the other auditors.

### Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing an opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control

64 Lynoak Cv Jackson, TN 38305 (731)668-1806 Fax (731)668-9543 1205 East Wood St. Paris, TN 38242 (731)642-1755 Fax (731)644-0413 1129 S. Main St. PO Box 681 Milan, TN 38358 (731)686-0181 304 Broadway St. Martin, TN 38237 (731)587-4221 Fax (731)587-9474 11 N. Court Square Brownsville, TN 38012 (731)772-2273 Fax (731)772-2275 110 West Court Dyersburg, TN 38024 (731)286-6080 Fax (731)285-8975 that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we and the other auditors did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests and those of the other auditors disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Honorable Mayor and Board of Aldermen City of Dyersburg, Tennessee

### **Report on Compliance for Each Major Federal Program**

We have audited City of Dyersburg's (the "City") compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on each of the School's major federal programs for the year ended June 30, 2020. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

### Management's Responsibility

Management is responsible for compliance with federal statues, regulations, contracts, and the terms and conditions of its federal awards applicable to its federal programs.

### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those

11 N. Court Square Brownsville, TN 38012 (731)772-2273 Fax (731)772-2275 110 West Court Dyersburg, TN 38024 (731)286-6080 Fax (731)285-8975 requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

### **Opinion on Each Major Federal Program**

In our opinion, the City complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

### Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency in internal control over compliance is a deficiency of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

#### Section II - Findings Relating to the Financial Statement Audit as Required to be Reported in Accordance with Government Auditing Standards

#### **Current Year Findings**

Dyersburg City Schools - None reported.

Dversburg Electric System - None reported.

#### **City of Dyersburg- General Government**

#### 2020-001 – Budget (Significant Deficiency and Non-compliance)

Condition: The City expended more than budgeted appropriations by major appropriation category in the Insurance Reserve Fund.

Cause: The budget was not amended to cover the necessary expenditures incurred during the fiscal year.

Criteria: TCA 6-56-203 prohibits a municipality from expending any monies except in accordance with a budget ordinance.

Effect: Spending in excess of budgeted appropriations is a violation of state law.

Recommendation: To avoid possible legal conflict, the City should authorize all expenditures either in the original budget, in an amendment, or in a supplemental appropriation.

Response: Management agrees to take the appropriate actions to ensure the expenditures are properly authorized as noted above.
