Independent Auditor's Report

Board of Mayor and Aldermen City of Dyersburg Dyersburg, Tennessee

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Dyersburg, Tennessee (City), as of and for the year ended June 30, 2012, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Dyersburg Electric System which is a major fund and represents 47 percent of the assets, net assets, and revenues of the City of Dyersburg, Tennessee. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Dyersburg Electric System is based on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of June 30, 2012, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparisons for the General Fund and the School Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 11, 2013 on our consideration of the City of Dyersburg, Tennessee's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedule of funding progress on pages 3 through 15 and 57 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Dyersburg, Tennessee financial statements. The combining and individual fund financial statements and schedules and supporting schedules except those marked unaudited are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations,* and is also not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditional procedures applied by us and the other auditors in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit and the report of other auditors, such information is fairly stated in all material respects in relation to the financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Dyersburg's financial statements. The supporting schedules, which have been marked unaudited, are presented for the purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Alexander Thompson Arnold PLLC

Dyersburg, Tennessee March 11, 2013

As management of the City of Dyersburg, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2012.

FINANCIAL HIGHLIGHTS

- > The assets of the City of Dyersburg exceeded its liabilities at June 30, 2012 by \$111,286,154 (net assets). Of this amount, \$19,698,701 is unrestricted and may be used to meet the government's ongoing obligations to citizens and creditors in accordance with the City's fund designation and fiscal policies. See page 16.
- > The City's total net assets increased by \$1,538,020.
- > At June 30, 2012, the governmental funds reported combined ending fund balances of \$7,319,754, of which \$438,221 was unassigned and available for use at the City's discretion. See page 18.
- > Governmental fund balances decreased \$614,185 (page 19) during the year.
- > During the fiscal year ended June 30, 2012, the City's total notes and bonds payable decreased by \$1,521,432 (see page 13 of the report for debt payments by activity).

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the City's net assets changed during the fiscal year. All changes in net assets are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, public works, schools, parks and recreation, and community services. The business-type activities of the City include Gas, Water and Sewer, Solid Waste Management and Electric operations.

The government-wide financial statements can be found on pages 16 - 17 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories - governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term effect of the government's near-term financing decisions. Both the governmental fund's balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains 10 governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund and School Fund, all of which are considered to be major funds. Data from the other 9 funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its governmental funds and proprietary funds except for the Electric Fund. Budgetary comparison schedules have been provided for all funds except for proprietary funds to demonstrate compliance with the budget and are presented as required supplemental information.

The basic governmental fund financial statements can be found on pages 18-26 of this report.

Proprietary Funds. The City maintains two types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account fo its gas, water and sewer, solid waste management, and electrical operations. Internal service funds are an accounting device used to accumulate and allocate costs internally to the City's various funds for communication costs and utility billing and collecting costs. Because these services benefit both governmental functions and business-type functions, they have been allocated to governmental activities and business-type activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Gas, Water and Sewer, and Electric funds since they are considered to be major funds of the City. Because the Solid Waste Management fund is the only remaining enterprise fund, it is being presented as a major fund even though it does not meet the criteria of a major fund established in Government Accounting Standards Board (GASB) Statement No 34. All internal service funds are combined into a single aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 27-30 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 31-56 of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on page 57 of this report.

The combining statements referred to earlier in connection with non-major governmental funds and internal service funds are presented following the required supplementary information on pensions. Combining and individual statements and schedules can be found on pages 58-100 of this report.

GOVERNMENTAL-WIDE FINANCIAL ANALYSIS

The City's combined net assets increased \$1,538,020 or approximately 1.4% from 2011 to 2012. Net assets decreased \$757,105 in governmental activities, with business-type activities increasing \$2,295,125. Combined net assets (assets exceeding liabilities) was \$111,286,154 at June 30, 2012. The table below provides a comparative summary of the City's net assets as of June 30, 2012 and 2011.

CITY OF DYERSBURG'S NET ASSETS

	Governmental Activities			Business-type				Total			
	2012		2011		 2012		2011	2012			2011
Current and other assets	\$	19,121,803	\$	18,970,764	\$ 29,929,063	\$	29,190,213	\$	49,050,866	\$	48,160,977
Capital assets		45,694,928		44,661,196	67,895,682		69,135,792		113,590,610		113,796,988
Total Assets		64,816,731		63,631,960	97,824,745		98,326,005		162,641,476		161,957,965
Long-term liabilities		23,922,915		22,569,083	12,262,398		14,559,377		36,185,313		37,128,460
Other liabilities		6,014,310		5,426,266	9,155,699		9,655,105		15,170,009		15,081,371
Total liabilities		29,937,225		27,995,349	21,418,097		24,214,482		51,355,322		52,209,831
Net assets:											
Invested in capital assets,											
net of related debt		28,414,612		28,160,939	55,152,467		53,977,504		83,567,079		82,138,443
Restricted		5,798,652		5,737,756	2,221,722		2,235,726		8,020,374		7,973,482
Unrestricted		666,242		1,737,916	19,032,459		17,898,293		19,698,701		19,636,209
Total net assets	\$	34,879,506	\$	35,636,611	\$ 76,406,648	\$	74,111,523	\$	111,286,154	\$	109,748,134

The largest portion of the City's net assets (\$83,567,079 or 75%) reflects its investments in capital assets, less any debt used to acquire those assets that is still outstanding. The net investment in capital assets increased \$1,428,636 from 2011. Of this increase governmental activities increased \$253,673, and business-type activities increased \$1,174,963. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net assets (\$8,020,374 or 7%) represents resources that are subject to external restriction on how they may be used. Restricted net assets increased \$46,892 from 2011. The remaining balance of net assets (unrestricted assets of \$19,698,701) may be used to meet the government's ongoing obligation to citizens and creditors. Unrestricted net assets increased \$62,492 from 2011. The increase in restricted and unrestricted net assets was the result of the increase in net capital assets less any outstanding debt related to those assets.

As of June 30, 2012, the City continues to report positive balances in all five categories of net assets, both for the government as a whole, as well as for its separate categories - governmental and business-type activities.

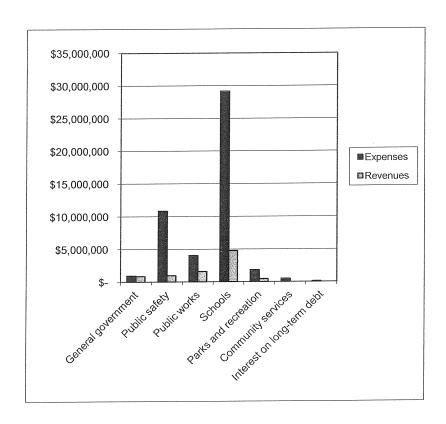

Analysis of the City's Operations. The following table provides a comparative summary of the City's operations for the years ended June 30, 2012 and 2011. Also, summary tables comparing 2012 with 2011 along with charts for 2012 are presented on pages 7 through 10 for Governmental expenses and program revenues and for Business-type expenses and program revenues. Governmental activities decreased the City's net assets by \$757,105 in 2012 compared to an decrease of \$948,265 in 2011. Business-type activities increased the City's net assets by \$2,295,125 in 2012 compared to a increase of \$2,863,338 in 2011.

The purpose of this bar chart is to present a comparison of expenses with their program revenues (i.e. revenues generated by the function) by function. The difference in the bars represents the amount of expenses being funded by tax revenues. The Table presents the actual amounts that support the Chart.

FINANCIAL ANALYSIS OF THE GOVERNMENTS FUNDS

Governmental funds. The focus of the City of Dyersburg's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City of Dyersburg governmental funds reported combined ending fund balances of \$7,319,754, a decrease of \$614,185 in comparison with the prior year. Approximately \$438,221 or 6% of the fund balance represents unassigned fund balance, which is available for spending at the City's discretion. The remainder of the fund balance is either non-spendable (\$181,790), restricted (\$4,957,418) or assigned (\$1,742,325).

In the general fund, the City budgeted for a decrease in the fund balance of \$166,200. Actual revenues were \$268,708 over budgeted revenues and actual expenditures were \$609,334 over budgeted expenditures. Net transfers and other financing sources (uses) of \$4,324,765 resulted in the fund balance decreasing \$959,561 for fiscal year 2012. School fund balance increased \$99,425.

Proprietary funds. The City's proprietary fund statements provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the respective proprietary funds are \$7,588,281 in Gas, \$(1,693,972) in Water and Sewer, \$765,213 in Solid Waste Management, and \$11,756,435 in the Electric System. All funds reported an increase in net assets except the Gas fund. The Electric System had an increase in net assets of \$2,005,922, Gas fund net assets decreased \$(64,092), Solid Waste Management fund net assets increased \$170,300 and Water and Sewer fund net assets increased \$97,074.

CAPITAL ASSETS

The City of Dyersburg's investment in capital assets for its governmental and business-type activities as of June 30, 2012, was \$112,986,475 (net of accumulated depreciation), a decrease of \$246,146 or 2% from 2011. The decrease is the result of net additions to capital assets of \$6,248,835 (a \$4,116,498 increase for Governmental activities and a \$2,132,337 increase for Business-type activities) net of depreciation of capital assets of \$6,494,981 (\$3,108,958 for Governmental activities and \$3,386,023 for Business-type activities). The investment in capital assets includes land, buildings and systems, improvements other than buildings, machinery and equipment, infrastructure and construction in progress.

Major capital asset events during the current fiscal year included the following (as rounded to the nearest hundred):

Governmental Funds	
General Fund -	
General government	\$ 1,582,000
Public safety	591,200
Public works	1,261,600

Additional information on the City of Dyersburg's capital assets can be found in Footnote IV. E. on pages 40-41 of this report.

DEBT ADMINISTRATION

At June 30, 2012, the City of Dyersburg had total bonded debt and notes payable of \$29,434,260. Of this amount, \$8,115,993 comprises bonded debt backed by the full faith and credit of the government and \$6,415,000 represents bonds secured by electric revenues. The notes payable of \$14,903,267 pertains to general fund (\$4,554,267), schools (\$9,424,000) and a landfill (\$925,000).

Total debt decreased \$1,521,432 or 5% from June 30, 2011 to June 30, 2012 as a result of new debt issued and payments made during the year.

Outstanding Debt at Year End Bonds and Notes Payable

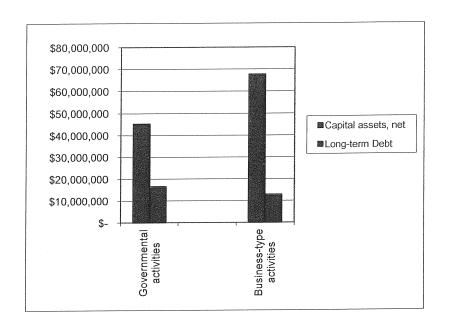

The City's long-term debt at June 30, 2012 and 2011 is summarized below:

		2012		2011							
	overnmental Activities	Business-type Activities			Total		Governmental Activities		Business-type Activities		Total
Notes Payable General Obligation Bonds Revenue Bonds	\$ 13,978,267 2,605,993	\$	925,000 5,510,000 6,415,000	\$ \$ \$	14,903,267 8,115,993 6,415,000	\$	12,885,000 2,790,692 -	\$	1,375,000 6,500,000 7,405,000	\$	14,260,000 9,290,692 7,405,000
	\$ 16,584,260	\$	12,850,000	\$	29,434,260	\$	15,675,692	\$	15,280,000	\$	30,955,692

The City's Bonds are insured thus holding an A+ credit rating with a stable outlook from Standard and Poors.

Additional information on the City of Dyersburg's long term-debt and debt changes for the year can be found in Footnote IV. H. on pages 42-44 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The unemployment rate of Dyer County is 12.9%. This compares unfavorably to the state's average unemployment rate of 8.1% and the national average of 8.2%. The City's budget has been affected by the overall slow down in the economy. However, an increase of 9.3% in sales tax collections during fiscal year 2012 may be an indication that the economy is in recovery. The property was increased from \$1.99 to \$2.14 for fiscal year 2013.

As a result of the economic condition in the area, the City has made a concerted effort to limit appropriations to only those items truly necessary. The previous years practice of minimizing amounts spent by the City for capital acquisitions will be continued in 2013.

The 2012-13 gas operations are budgeted to operate at a net income after transfers of \$567,600 as compared to a net income of \$(64,092) after transfers for fiscal year 2012.

Water and Sewer rates were increased 5% for fiscal year 2013. The Water and Sewer Fund is budgeted to operate at a net income of \$517,500 after transfers as compared to a net income of \$97,074 for fiscal year 2012.

The 2012-13 solid waste operations are budgeted to operate at a net income of \$49,900 as compared to net income of \$170,300 for fiscal year 2012.

REQUEST FOR INFORMATION

The financial report is designed to provide our citizens, customers, investors and creditors with general overview of the City's finances. If you have questions about this report or need any additional information, contact the Treasurer's Office at P.O. Box 1358, Dyersburg, TN 38025-1358 or call (731) 288-7609.

CITY OF DYERSBURG, TENNESSEE RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2012

Amounts reported for governmental activities in the statement of activities (page 18) are different because:

Net change in fund balances - total governmental funds (page 19)	\$ (614,185)
Proceeds from the sale of bonds are not reported as revenue in the statement of activities	(2,334,267)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation expense.	1,007,540
Accrual for post employment benefits.	(284,480)
The issuance of long-term debt (e.g., bonds, notes) and the refunding of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	1,497,945
The net revenue of certain activities of internal service funds is reported with governmental activities.	(85,921)
A reduction in expenses reported in the statement of activities does not require the use of or supply financial resources and therefore, is not reported as expenditures in governmental funds.	56,263
Change in net assets of governmental activities (page 17)	\$ (757,105)

CITY OF DYERSBURG, TENNESSEE NOTES TO FINANCIAL STATEMENTS June 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of Dyersburg, TN (City) is a municipal corporation governed by an elected mayor and eight-member Board of Aldermen. The accompanying financial statements include the accounts of all City operations. Based on the criteria of Section 2100 of GASB's Codification of *Governmental Accounting and Financial Reporting Standards*, the City has no component units.

The proprietary funds' financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements, in which case GASB prevails. Although the City has the option to apply FASB pronouncements issued after that date, it has chosen not to do so.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within sixty (60) days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

CITY OF DYERSBURG, TENNESSEE NOTES TO FINANCIAL STATEMENTS June 30, 2012

The government reports the following major governmental funds:

The **general fund** is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **school fund** accounts for the activities of the Dyersburg City Schools. The City provides elementary through secondary educational opportunities for its residents.

The government reports the following major proprietary funds:

The water and sewer fund accounts for the activities of the City's Water and Sewer system. The City operates the sewage treatment plant, sewage pumping stations and collection systems, and the water distribution and purification system.

The natural gas fund accounts for the activities of the City's natural gas distribution system.

The **solid waste management fund** accounts for the activities of the City's landfill and the collection system of residential, commercial, and industrial garbage.

The electric fund accounts for the activities of the City's electric distribution operations.

Additionally, the government reports the following fund types:

The *internal service funds* account for data processing, utility billing, utility collection, and communication services provided to other funds of the City on a cost reimbursement basis.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Government Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's enterprise funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers for goods and services provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and of the City's internal service funds are charges to customers for sales and services. The enterprise funds also recognize as operating revenue the portion of fees charged that are intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

CITY OF DYERSBURG, TENNESSEE NOTES TO FINANCIAL STATEMENTS June 30, 2012

D. Assets, Liabilities, and Net Assets or Equity

1. Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three (3) months or less from the date of acquisition.

The City is allowed to invest in (1) obligations of the United States or its agencies and instrumentalities; (2) direct obligations of the State of Tennessee or its agencies; (3) other obligations, the principal of and interest on which are unconditionally guaranteed or insured by the State of Tennessee or the United States; (4) certificates of deposits issued by state and national banks domiciled in Tennessee that are guaranteed or insured by the Federal Deposit Insurance Corporation or its successor, or secured by obligations mentioned above; and (5) fully collateralized direct repurchase agreements having a defined termination date.

Investments for the City are reported at fair value.

2. Receivables and Payables

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. These amounts are classified as Due to/from other funds.

All trade and property tax receivables are shown net of an allowance for uncollectible accounts. The allowances for uncollectible accounts have been established at an amount considered sufficient by the City to offset losses from customers nonpayment.

Property taxes are levied as of September 1 on the property values assessed as of the prior January 1. Taxes are due on the levy date and are delinquent after the following December 31. Tax liens are automatic on January 1 each year and continue until such taxes and any penalty, interest or other charges accruing thereon are paid. Assessed values are established by the County Tax Assessor at 25% of appraised market value for residential real property, 40% for commercial real property, 55% for public utilities, and 30% for business personal property. A complete reappraisal of all property is required every six (6) years with an update after the third year. A revaluation was completed in 2008. The City's tax rate applicable to 2011 was \$1.99 on each \$100 of tax valuation.

3. Inventories and Prepaid Items

The inventory of materials and supplies of the proprietary funds are valued at the lower of market or average cost. The inventory of the Dyersburg City Schools is valued at cost, using the first-in/first-out (FIFO) method. Inventories are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

4. Restricted Assets

Certain proceeds of the Dyersburg Electric System enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because they are maintained in separate bank accounts and their use is limited by applicable covenants. The construction fund accounts are used to report those proceeds of revenue bond issuances that are restricted for use in construction. The bond retirement fund account is used to segregate resources accumulated for debt service payments over the next twelve (12) months. The renewal and replacement fund accounts are used to report resources set aside to meet unexpected contingencies or to fund asset renewals and replacements.

5. Capital assets, depreciation, and amortization

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two (2) years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. However, the Dyersburg Electric System does not capitalize construction period interest into the cost of fixed assets because the borrowings are not related to specific projects and are incurred for general repairs, maintenance, and plant expansion.

Property, plant, and equipment of the primary government is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	50
Building improvements	20
Public domain infrastructure	50
System infrastructure	30
Vehicles	5
Office equipment	5
Computer equipment	5

The City policy for amortization of deferred charges and of acquisition cost of utility customers is to amortize these costs over their estimated benefit period. Amortization periods range from five (5) to twelve (12) years.

6. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All vacation and sick pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. Governmental funds report only matured compensated absences payable to currently terminating employees and are included in wages and benefits payable. Unpaid compensated absences for proprietary fund types are recorded as expenses and liabilities in those funds as the benefits accrue to employees.

7. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

8. Fund Equity

Governmental fund equity is classified as fund balance. Beginning with fiscal year 2011, the City of Dyersburg implemented GASB Statement 54, Fund Balance Reporting and Governmental Fund Type Definitions. This statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. GASB 54 requires the fund balance amounts to be properly reported within one of the following fund balance categories:

Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example: inventories, prepaid amounts, and long term notes receivable.

Restricted: This classification includes amounts for which constraints have been placed on the use of the resources that are either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation.

Committed: This classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Board of Mayor and Aldermen (the City's highest level of decision-making authority). These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed.

Assigned: This classification includes spendable amounts that are reported in governmental funds other than the General Fund, that are neither restricted nor committed, and amounts in the General Fund that are intended to be used for a specific purpose in accordance with the provisions of GASB Statement 54. The intent of an assigned fund balance should be expressed by either the Board of Mayor and Aldermen, or a subordinate high-level body, such as the Finance Committee, that has the authority to assign amounts to be used for specific purposes.

Unassigned: This classification is the residual fund balance for the General Fund. It also represents the fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

In the government-wide financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change. Governmental funds also report fund balance amounts representing funds invested in capital assets net of related debt and unrestricted funds.

When fund balance resources are available for a specific purpose in multiple classifications, the Board would use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed. However, it reserves the right to selectively spend unassigned resources first and to defer the use of the other classified funds.

9. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

10. Vacation and Sick Leave

The City has established various vacation and sick leave policies for different segments of employees.

- 1) Dyersburg School System The School System provides one day of vacation for each month of service for professional employees. Any unused vacation is paid at year end to the employee. Professional employees receive one day of sick leave for each month of service. Any sick leave unused is not paid, but is used to increase retirement benefits. Nonprofessional employees receive .75 days per month or the equivalent of 9 days per year to be used as sick leave or vacation. The non-professional employees can accumulate up to a maximum of 15 days. The days accumulated in excess of the maximum are to be paid to the employees as .5 days pay for days accumulated in excess of the maximum allowed.
- 2) Dyersburg Electric System Electric System employees accrue vacation days under the following terms:

Employment Term	Days Earned
1 month to 10 years	1 day per month
11 years to 15 years	1.25 days per month
16 years to 20 years	1.50 days per month
Over 20 years	1.75 days per month

A maximum of 252 hours may be carried forward into the next calendar year. Sick leave accumulates at the rate of one day for each full calendar month of employment service. Unused sick leave days may accumulate from year to year up to a maximum of ninety days.

3) Firefighters accrue vacation days under the following terms:

Employment Term	Days Earned
1 to 2 years	3 shift days (1 week)
2 to 10 years	5 shift days (2 weeks)
10 to 20 years	8 shift days (3 weeks)
Over 20 years	10 shift days (4 weeks)

Vacation leave shall begin to accrue at the end of the first full month of employment, but may be granted only after the probation period is completed. Vacation time not used during the anniversary year may be carried forward to the following anniversary year subject to the approval of the department head. Sick leave with pay shall be granted to all full-time employees at the rate of one-half shift day for each completed month of service and may be accrued to a maximum of forty-five (45) days. Employees shall accrue sick leave from their employment date. No payment will be made for accrued sick leave upon separation, except for those employees that have accumulated twenty years of service with the City and that were employed prior to March 18, 1991.

4) Other City employees - All other City employees are allowed paid vacations of five days after one year of service, ten days after two years, fifteen days after ten years, and twenty days after twenty years. Unused vacations may be accumulated to a maximum of three hundred sixty (360) hours and carried forward to the following year. Sick leave with pay shall be granted all full-time employees at the rate of one working day for each completed month of service and may be accrued to a maximum of ninety (90) days. Employees shall accrue sick leave from their employment date. No payment will be made for accrued sick leave upon separation, except for those employees that have accumulated twenty years of service with the City and that were employed prior to March 18, 1991.

11. Deferred Revenue

Deferred revenue represents amounts that were receivable and measurable at June 30, 2012, but were not available to finance expenditures for the year ended June 30, 2012. Deferred revenues primarily include unearned or unavailable revenues.

12. Utility Pole Rental

The Electric System contracts with other utilities to share poles for lines. These contracts are renewed on an annual basis. Pole rent expense for the year ended June 30, 2012, was \$13,646.

II. Reconciliation of Government-Wide and Fund Financial Statement

A. Explanation of certain differences between the governmental fund balance sheet and the governmentwide statement of net assets

The governmental fund balance sheet includes a reconciliation between fund balance - total governmental funds and net assets - governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this \$18,100,169 difference are as follows:

Bonds payable	\$ 4,940,260
Notes payable	11,644,000
Capital lease payable	75,858
Compensated absences	1,440,051
Net adjustment to reduce fund balance - total governmental funds to arrive at net assets - governmental activities	\$ 18,100,169

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over the estimated useful lives and reported as depreciation expense." The details of this \$1,007,540 difference are as follows:

Capital outlay	\$ 4,116,498
Less depreciation expense	(3,108,958)
Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	\$ 1,007,540

III. Stewardship, Compliance, and Accountability

A. Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse the fiscal year end.

The appropriated budget is prepared by fund, function, and department. Transfers of appropriations between line items require the approval of the Board of Mayor and Aldermen. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the line item level. Several supplemental budgetary appropriations were made throughout the year.

For the year ended June 30, 2012 expenditures exceeded appropriations in the General Fund, Community Development Fund, Insurance Reserve Fund and Communications Service Fund.

IV. Detail Notes on All Funds

A. Deposits and Investments

Cash and certificates of deposit are carried at cost which approximates market value.

The City is mandated by law to require that the financial institutions in which they maintain deposits pledge securities to collateralize deposits which are in excess of the amount covered by federal insurance. At June 30, 2012, the City's bank deposits were entirely insured with FDIC Insurance or through the state bank collateral pool.

At year end, the government's investment balances were as follows:

			Trust
	lr	nvestments	 Funds
Time Deposits	\$	10,000	\$ -
Certificates of Deposit		6,185,598	
U. S. Agencies and Instrumentalities		_	1,320,056
Total Securities		6,195,598	1,320,056
Local Government Investment Pool		1,043,790	-
Total Investments	\$	7,239,388	\$ 1,320,056

Local Government Investment Pool investments are not categorized, in accordance with GASB No. 3, because they are not evidenced by securities that exist in physical or book entry form.

The State Treasurer operates the State Pooled Investment Fund of which the Local Government Investment Pool is a part. The funds are invested by the State at various financial institutions in the State and in other approved investments. The funds may be liquidated as needed.

The State Pooled Investment Fund (SPIF) operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. Therefore, the SPIF uses amortized cost accounting measures to report investments and share prices. Accordingly, the fair value of the position in SPIF is the same as the value of SPIF shares.

B. Receivables

Receivables as of year end for the City's individual major funds and nonmajor, internal service, and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

Governmental Funds:

		Nonmajor					
	General		School	Funds			Total
Taxes	\$ 468,551	\$	466,338	\$		\$	934,889
Accounts	1,215,757		19,682		48,214		1,283,653

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, deferred revenue reported in the governmental funds was as follows:

	U	navailable
Property taxes receivable (general fund) Lot mowing charges (general fund) Interest (community development fund)	\$	7,282,932 25,872 40,738
Total deferred revenue for governmental funds	\$	7,349,542
-		

C. Notes Receivable

During the year ended June 30, 1996, the City sold 30 acres of industrial park land to the Industrial Development Board of Dyer County. The Board executed a non-interest bearing note payable in favor of the City in the amount of \$240,000 due in full October 1, 2015. The principal balance of the note is reflected as a note receivable on the balance sheet of the Community Development Fund. A deferred credit representing unearned interest, at an imputed interest rate of 8.25%, is reflected as a liability on the balance sheet of the Community Development Fund. Unearned interest on this note at June 30, 2012 was \$10,605.

By prior agreement, the City agreed to reimburse the County of Dyer for its investment in real estate of the Industrial Development Park as parcels are sold and the sales price collected. Accordingly, a liability has been recorded in the Community Development Fund in the amount of \$30,133.

D. Prepaid Purchased Power

During the years ended June 30, 2003 and 2004 the Electric System entered into two separate agreements with the Tennessee Valley Authority (TVA) to purchase power to be distributed in the future. The Electric System paid TVA \$1,000,000 with each contract in exchange for credits against the System's monthly power bill of 435,000 and 429,000 kWh each, at a set rate of 2.5 cents per kWh for ten years. The System's monthly power bill is credited \$21,600 by TVA. The balance due from TVA is represented on the Statement of Net Assets with a balance at June 30, 2012 of \$183,334. The System's records, and financial information submitted to TVA, reflects the total number of credits to be received over the length of the contract as an asset and a contra account representing the total income to be received as deferred interest income as follows:

Prepaid Purchased Power	\$ 236,850
Deferred Interest Income	(53,516)
	\$ 183,334

E. Capital Assets

Capital asset activity for the year ended June 30, 2012 was as follows:

School General Purpose	General (Budgeted) Federal Projects (Indirect Costs) Debt Service (School Debt)		15,000 21,894 1,327,928	
Total	,	\$	3,487,020	

Interfund balances and transfers occur in the normal course of business activities.

G. Leases

During the year ended June 30, 2011, the City entered into a lease agreement for eight police vehicles with the following terms:

		Annual				
Lease Date Lease Term		Payment	Le	Lease Total		
4/20/11	4/20/11 36 Months		 \$	227,756		

During the year ended June 30, 2012, lease payments were made in the amount of \$72,246. Future minimum lease payments under this agreement are as follows:

Year ended June 30, 2013

\$ 75,858

H. Long-Term Debt

1. General Obligation bonds

General obligation bonds are direct obligations and pledge the full faith and credit of the government. General obligation bonds currently outstanding are as follows:

\$8,365,000 General Obligation Water and Sewer Refunding Bonds, Series 2009 dated April 28, 2009, due in annual installments at 3.00-4.00%, secured by revenues of the City.

\$ 5,510,000

\$2,960,000 General Obligation Qualified School Construction Bonds, Series 2009 dated December 17, 2009, due in monthly installments at 1.515% interest, secured by revenues of the City.

\$ 2,605,993

Annual debt service requirements to maturity for general obligation bonds are as follows:

Year Ending	Governmental Activities Business-ty				ype Activities			
June 30,	 Principal		Interest		Principal		Interest	
2013	\$ 184,699	\$	44,844	\$	1,020,000	\$	179,900	
2014	184,699		44,844		820,000		152,300	
2015	184,699		44,844		680,000		129,800	
2016	184,699		44,844		700,000		105,600	
2017	184,699		44,844		735,000		76,900	
2018-2022	923,495		224,220		1,555,000		62,500	
2023-2027	759,003		179,376		-		_	
Totals	\$ 2,605,993	\$	627,816	\$	5,510,000	\$	707,000	

2. Revenue Bonds

The City also issues bonds where the City pledges income derived from the acquired or constructed assets to pay debt service. Revenue bonds outstanding at year end are as follows:

\$2,500,000 Electric System Revenue Refunding Bonds, Series 2003 dated June 4, 2003, due in annual installments at 2.15-3.85% interest, secured by revenues of the System	\$	1,700,000
\$3,800,000 Electric System Revenue Refunding Bonds, Series 2005 dated March 22, 2005, due in annual installments at 3.10-4.10% interest, secured by revenues of the System		1,595,000
\$2,000,000 Electric System Revenue Refunding Bonds, Series 2007 dated March 26, 2007, due in annual installments at 3.70 - 4.00% interest, secured by revenues of the System		1,755,000
\$1,775,000 Electric System Revenue Refunding Bonds, Series 2010 dated February 10, 2010, due in annual installments at 2.00 - 3.00% interest, secured by revenues of the System.	Barreto-AP-VI CONTROL	1,365,000
Total Revenue Bonds Payable	\$	6,415,000

Revenue bond debt service requirements to maturity are as follows:

Year Ending					
June 30,	Principal Interest				
2013	\$ 945,000	\$	223,046		
2014	980,000		196,257		
2015	740,000		168,557		
2016	765,000		143,137		
2017	575,000		116,460		
2018-2022	2,220,000		251,258		
2023-2027	190,000		7,600		
Totals	\$ 6,415,000	\$	1,106,315		

3. Notes Payable

The City has executed notes payable for the construction or acquisition of major capital facilities. Notes payable have been obtained for both governmental and business – type activities.

Governmental activities

\$10,000,000 Tennessee Municipal Bond Fund Variable Rate Loan Program, dated September 19, 2000, secured by revenues of the City	\$ 8,034,000
\$2,750,000 Capital Outlay Notes dated April 18, 2007, secured by revenues of the City	2,220,000
\$2,200,000 School Capital Outlay Notes dated April 18, 2007, secured by revenues of the City	1,390,000
\$4,500,000 Tennessee Municipal Bond Fund Variable Rate Loan Program, dated September 29, 2011, secured by revenues of the City	 2,334,267
Total notes payable - Governmental activities	\$ 13,978,267

Business type activities

\$2,600,000 Landfill Capital Outlay Notes dated December 20, 2007, secured by revenues of the solid waste revenues

Total notes payable - Business type activities

925,000

Total notes payable

\$ 14,903,267

Annual debt service requirements to maturity for notes payable are as follows:

Year EndingJune 30,	Principal	 Interest
2013	\$ 1,748,000	\$ 455,086
2014	1,837,000	390,932
2015	1,422,000	323,731
2016	1,488,000	269,254
2017	1,558,000	213,712
2018-2022	4,516,000	 289,742
Totals	\$ 12,569,000	\$ 1,942,457

The difference in total notes payable of \$2,334,267 is due to the 2011 Tennesee Municipal Bond Fund loan still being open and therefore, not having a finalized payment schedule.

4. Changes in long-term liabilities

Long – term liability activity for the year ended June 30, 2012, was as follows:

		Balance						Balance	Due in
		July 1, 2011		Additions	_	Deductions	June 30, 2012		One Year
Governmental Activities			-				-

J. Industrial Park Property

The City of Dyersburg has purchased several parcels of industrial property in an equal partnership with the County of Dyer, Tennessee. When the property is sold, the County of Dyer receives one-half of the net proceeds from the sales after allowance has been made for reimbursement to the City for costs of developing the property, if any. At June 30, 2012, approximately 308 acres of undeveloped industrial park property is owned jointly by these two governmental bodies.

K. Closure and Postclosure Care Costs

State and Federal laws and regulations require that the City place a final cover on its landfill when closed and perform certain maintenance and monitoring functions at the landfill site for thirty years after closure. In addition to operating expenses related to current activities of the landfill, an expense provision and related liability are being recognized based on the future closure and postclosure care costs that will be incurred near or after the date the landfill no longer accepts waste. At June 30, 2012, the estimated remaining useful life of the landfill was 63 years.

The recognition of the landfill closure and postclosure care costs is based on the amount of the landfill used during the year. The estimated liability for landfill closure and postclosure care costs has a balance of \$1,074,200 as of June 30, 2012, which is based on 18.7% usage (filled) of the landfill. It is estimated that an additional \$4,664,543 will be recognized as closure and postclosure care expenses between the date of the balance sheet and the date the landfill is expected to be filled to capacity. The estimated total current cost of the landfill closure and postclosure care (\$5,738,743) is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, and maintain the landfill were acquired as of June 30, 2012. However, the actual cost of closure and postclosure care may be higher due to inflation, changes in technology, or changes in landfill laws and regulations.

The City is required by state and Federal laws and regulations to make annual contributions to finance closure and postclosure care. At June 30, 2012, the City has \$312,520 on deposit for the funding of this liability. The City has executed contracts in lieu of performance bonds with the State of Tennessee in the sum of \$5,578,959 which states that the City shall properly operate the solid waste facility and perform closure of the facility in accordance with all requirements of the permit and the closure/postclosure plan pursuant to all applicable laws and regulations. Failure of the City to perform would entitle the State of Tennessee to collect any state funds disbursed to the City for the cost of any violations.

Once the City funds the closure/postclosure liability, it would be anticipated that future inflation costs would be financed in part from earnings on investments held by the trustee. The remaining portion of anticipated future inflation costs (including inadequate earnings on investments, if any) and additional costs that might arise from changes in postclosure requirements (due to changes in technology or more rigorous environmental regulations, for example) may need to be covered by charges to future landfill users, taxpayers, or both.

V. Other Information

A. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the City. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

Dyersburg City Schools

During the year ended June 30, 2012, the School obtained insurance from the Tennessee School Board Liability Trust (TSBLT), which is a public entity risk pool established to provide insurance coverage to local School boards in Tennessee. The Board pays an annual premium to TSBLT for insurance. The creation of TSBLT provides for it to be self-sustaining through member premiums. The TSBLT reinsures through commercial insurance companies for claims in excess of \$100,000 for each insured event.

It is the policy of the School Board to purchase commercial insurance for the risks of losses to which it is exposed, other than those risks noted above. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

Dyersburg Electric System

The Electric System is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets, errors and omissions and natural disasters for which the System carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

Other City Segments

The City through the City of Dyersburg Healthcare Network provides City employees with self-funded healthcare coverage. The City entered an agreement with Underwriters Safety & Claims, Inc. for claims administration and payment. Claims in excess of a self-insured aggregate limit of \$3,571,283 and specific underlying coverage of \$100,000 per employee was covered through third party insurance policies. Revenues are recognized from payroll deductions for employee dependent coverage and from City contributions for employee coverage. There were no reductions in insurance coverage, and claims paid in excess of self-insured limits have been reimbursed to the City or recorded as a receivable at June 30, 2012.

The City is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions and natural disasters for which the City carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

B. Concentration of Credit Risk

The City bills local property owners for property taxes and customers of the Enterprise Funds for utility services. At June 30, 2012, these property owners and customers are indebted to the City as noted on the Balance Sheet and Statement of Net Assets of the General and Proprietary Funds. The majority of the property owners and customers are local businesses or individuals. The property is subject to foreclosure in the event of non-payment after certain legal requirements are met. The utility services are sold to the customers without requiring any collateral although deposits are required in certain situations. The ability of customers to pay is dependent upon the economic conditions of the area.

C. Pending or Threatened Litigation

At June 30, 2012 Dyersburg Electric had no litigation or pending litigation.

At June 30, 2012 Dyersburg City Schools had no litigation or pending litigation.

At June 30, 2012 the City of Dyersburg had no litigation or pending litigation that is expected to result in any liability to the City.

D. Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

E. Employee Retirement Systems and Pension Plans

The City has established various retirement plans for different segments of employees. Contributions by the City to all plans for the year ended June 30, 2012, were \$2,229,541. A brief description of each plan follows:

Dyersburg City Schools

1. Plan Description

The Dyersburg City Schools Board of Education contributes to the State Employees, Teachers, and Higher Education Employees Pension Plan (SETHEEPP), a cost-sharing multiple employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits to plan members and their beneficiaries. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members who are at least 55 years of age or have 25 years of service.

Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the plan on or after July 1, 1979, are vested after five years of service. Members joining prior to July 1, 1979, are vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapters 34-37 of the Tennessee Code Annotated (TCA).

State statutes are amended by the Tennessee General Assembly. Cost of living adjustments (COLA) are provided to retirees each July based on the percentage change in the Consumer Price Index (CPI) during the previous calendar year. No COLA is granted if the CPI increases less than one-half percent. The maximum annual COLA is capped at three percent.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the SETHEEPP. That report may be obtained by writing to the Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or be accessed at www.tn.gov/treasury/tcrs.

Funding Policy

Most teachers are required by state statute to contribute 5% of salary to the plan. The employer contribution rate for the Dyersburg City Schools Board of Education is established at an actuarially determined rate. The employer rate for the fiscal year ending June 30, 2012 was 6.42% of annual covered payroll. The employer contribution requirement for the Dyersburg City Schools Board of Education is established and may be amended by the TCRS Board of Trustees. The employer's contributions to TCRS for the years ending June 30, 2012, 2011, and 2010, were \$1,082,822, \$1,125,550, and \$784,408, respectively, equal to the required contributions for each year.

2. Plan Description

Non-professional employees may elect to participate in a pension plan which was adopted by the School Board and which is administered by the Trust Department of First Tennessee Bank, Memphis, Tennessee. Electing non-professional employees made contributions equal to 5% of gross salary.

Actuarial information is estimated as of January 1, 2011.

At January 1, 2011, the Retirement Plan membership consisted of:

Retirees and beneficiaries currently receiving benefits
and terminated employees entitled to benefits
not receiving them

Active employees Fully vested
Non-vested

Total

Sequence 2

Fully vested
50

140

According to the Plan, employees having less than ten (10) years of service are non-vested. Employees became 100% vested when they complete ten (10) years of service. Employees may retire after age sixty (60) and the completion of ten (10) years of service with a reduction for early commencement.

As actuarial valuations are determined as of January 1, funding information is not available on a fiscal year basis. At the date of this report, the last actuarial valuation was performed as of January 1, 2011.

Disclosure Information

Governmental Accounting Standards Board Statement 25 establishes financial reporting standards for defined benefit pension plans sponsored by employers that are subject to governmental accounting standards.

Governmental Accounting Standards Board Statement 27 provides standards for reporting pension expenditures and expense and related pension liabilities and assets for such plans. The purpose of this report is to provide pertinent disclosure information relating to the Dyersburg City Schools Non-Professional Employees Pension Plan for the 2010 financial statements.

The statements generally provide that the actuarial methods and assumptions utilized for financial reporting should be the same methods and assumptions utilized in determining plan funding requirements. Consequently, benefits and values reported herein are based upon census data provided, and plan provisions and actuarial methods and assumptions, set forth in the actuarial valuation report preceding the fiscal year-end. Information as to these items can be found in the appropriate Actuarial Valuation and Report.

Statement 27 sets forth a methodology to determine annual adjustments to the Annual Required Contribution (ARC), which is the contribution required pursuant to the appropriate actuarial valuation, to account for differences between amounts expensed and contributions actually made. The resulting adjusted amount is referred to as the Annual Pension Cost (APC). The accumulated difference between the APC and the actual contribution is referred to as the Net Pension Obligation (NPO). To determine the NPO (and therefore the APC) at the date of transition, the statement requires a retroactive calculation for all fiscal years beginning after December 31, 1986 and the date the statement is initially applied. The information below assumes that the actual contributions equaled the Annual Required Contribution for the fiscal years beginning after December 31, 1986 and the date the statement was initially applied.

Schedule of Employer Contributions

Year Ended December 31	Annual Required Contribution	Actual Contribution	Percentage Contributed		
2004	\$ -	\$ -	n/a		
2005	· _	_	n/a		
2006	_	_	n/a		
2007	43,353	-	-0-		
2008	43,353	-	-0-		
2009	73,186	-	-0-		
2010	73,186	-	-0-		

Three Year Trend Information

	Year Ending December 31,							
		2008		2009	2010			
Annual Pension Cost	\$	42,933	\$	72,351	\$	41,652		
Actual Contribution	\$	-	\$	-	\$, -		
Percent of Annual Pension Cost Contributed		n/a		n/a		n/a		
Net Pension Obligation	\$	86,286	\$	158,637	\$	230,289		

Net Pension Obligation as of December 31, 2011

Determination of Annual Pension Cost / Net Pension Obligation for 2011

Annual required contribution	\$ 73,186
Interest on net pension obligation	11,898
Adjustment to annual required contribution	(13,432)
Annual pension cost	71,652
Contributions made	
Increase (Decrease) in net pension obligation	71,652
Net pension obligation beginning of year	158,637
Net pension obligation end of year	\$ 230,289

Additional Information Regarding Comparison

The plan's funding policy is to contribute the annual required contribution based on a 10-year, 20-year or 40-year amortization funding level. For the 2011 plan year, the annual required contribution was \$73,186 and the School did not make any employer contributions.

Actuarial assumptions have been revised periodically to reflect actual plan experience and expectations regarding future events. The most recent assumption revision was effective January 1, 2003 when the rates of investment return, salary increases, withdrawal and mortality were all changed.

Actuarial methods were last revised effective January 1, 1995 when the definition of actuarial assets was redefined as the five year smoothed asset value.

The last plan amendment prior to the disclosure date was adopted on October 30, 2001. No substantive amendments have been adopted since the disclosure date.

The School's amortization policy has been to amortize unfunded actuarial liabilities, if any, over a 10-year or 20-year period from each valuation date.

Total pension benefit obligation	\$ 5,554,591
Net assets available for benefits, at market value	 (4,489,326)
Unfunded actuarial accrued liability, January 1, 2011	\$ 1,065,265

Dyersburg Electric System

1. Plan description

The Retirement Committee accounts for the activity of the Dyersburg Electric System Retirement Plan. The System is a single employer public employee retirement system (PERS). All employees of the System are eligible to participate following the attainment of age 21 and the completion of three (3) years of service.

At December 31, 2011, the Retirement Plan membership consisted of:

Retirees and beneficiaries currently receiving benefits	3
Active employees: Fully vested Partially vested	25 14
Nonvested	1
Total	43

The Plan provides retirement benefits as well as death and disability benefits. The Plan benefit formula accrual rate is 2.0% per year of service. Retirement benefits begin vesting after five (5) years of service and are completely vested after fifteen (15) years of service. Employees may retire after age 55 and the completion of ten (10) years of service with a reduction for early commencement. There is no reduction if the employees' age plus years of service is 85 or greater.

Employees are required to contribute 1% of compensation. Dyersburg Electric System intends to contribute amounts necessary to fund the Plan, as determined by the Actuary.

2. Funding Status and Progress

The amount shown as "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected inflationary salary increases and step-rate benefits estimated to be payable in the future as a result of employee service to date. The measure is intended to help users assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among employers. The measure is the actuarial present value of credited projected benefits and is independent of the funding method used to determine contributions to the Plan.

The pension benefit obligation was computed as of December 31, 2011. Significant actuarial assumptions used in the computation include (a) rate of return on the investment of present and future assets of 7.5 percent a year compounded annually, (b) projected salary increases of 5.0 percent a year compounded annually, attributable to inflation, (c) no additional projected salary increases for seniority or merit, and (d) no post-retirement benefit increases. The actuarial method used is the projected unit credit actuarial cost method which is the only method permitted by Governmental Accounting Standards Board Statement No. 5.

The pension benefit obligation in excess of assets applicable to the System's employees at December 31, 2011, based on the actuary's computation at December 31, 2011, is as follows:

Pension benefit obligation: Retirees and beneficiaries currently receiving benefits and terminated	
employees not yet receiving benefits	\$ 1,385,809
Current employees:	
Employer-financed vested	3,019,488
Employer-financed non-vested	841,188
Employee-financed vested	229,528
Total pension benefit obligation	5,476,013
Net assets available for benefits, at market value	5,475,155

Actuarially Determined Contribution Requirements and Contributions Made

Pension benefit obligation in excess of assets

The Plan's funding policy provides for actuarially determined periodic contributions. The contribution rate for normal cost is determined using the Frozen Entry Age actuarial funding method. The Plan amortizes the initial unfunded liability over a ten (10) to thirty (30) year period.

858

The contributions to the Plan for the year ended December 31, 2011, of \$401,619 were made in accordance with actuarially determined requirements computed through the actuarial valuation performed as of January 1, 2011. The contribution consisted of \$168,799 normal cost (7.9 percent of covered payroll), \$211,917 amortization of the unfunded actuarial accrued liability (10.0 percent of covered payroll), and \$20,903 in employee contributions (1.0 percent of covered payroll).

4. Trend Information

Year	Net Assets Available For Benefits	Pension Benefit Obligation	Percentage Funded	Unfunded Pension Benefit Obligation	Annual Covered Payroll	Unfunded Pension Benefit Obligation as a percentage of Covered Payroll

Other City Employees

1. Plan Description

All other City employees who are employed for at least 17 1/2 hours per week and for at least seven months per year are eligible to participate in the plan and accrue basic retirement benefits following the completion of three months of continuous employment and attainment of age eighteen. Normal retirement age is considered to be 65 for participants hired after February, 1989. Normal retirement age is considered to be 60 for participants hired before February , 1989.

A participant's monthly basic retirement benefit is equal to the product of (a) 2% of average monthly earnings and (b) number of years and months of credited service not to exceed 35 years of credited service. City employees hired prior to February, 1989, qualify for a supplemental \$100 retirement benefit per month after ten (10) years of continuous service.

The Plan provides retirement benefits, as well as, death and disability benefits. Benefits begin vesting after four (4) years of service and are 100% vested upon completion of ten (10) years of service. A participant may retire early if he is within five (5) years of normal retirement and the completion of ten (10) years of continuous service.

At July 1, 2011, the Retirement Plan membership consisted of:

Inactive participants - Receiving benefits	25
Inactive participants - Entitled to future benefits	48
Active participants - Basic retirement benefits	205
Participants - basic retirement benefits by no longer contributing	3
Participants - supplemental retirement benefits only	2
Total participants	283

Participating employees contribute 5% of each year's earnings. Pension plans sponsored by public entities are not required to comply with specific funding requirements; however, the Board of Mayor and Aldermen officially dedicated 100% of the wholesale liquor tax to the funding of this plan upon its inception. The City contributed \$745,100 to this plan for the year ended June 30, 2012 of which, \$63,069 was from wholesale liquor tax receipts.

The funds of the plan are held in trust and administered by First Citizens National Bank of Dyersburg, Tennessee. Thornthwaite & Co. prepared the actuarial study and valuation as of July 1, 2011 for the plan year ending June 30, 2011.

2. Analysis of Funding Progress

	As of July 1,		
	2007	2009	2011
Net Assets Available For Benefits	\$ 5,472,751	\$ 3,194,853	\$ 4,263,221
Pension Benefit Obligation	\$ 12,863,009	\$ 12,535,673	\$ 14,829,284
Percentage Funded	42.5%	25.5%	28.7%
Unfunded Pension Benefit Obligation	\$ 7,390,258	\$ 9,340,820	\$ 10,566,063
Annual Covered Payroll	\$ 10,735,261	\$ 11,289,921	\$ 11,070,387
Unfunded Pension Benefit Obligation as a Percentage of Annual Covered Payroll	68.8%	82.7%	95.4%

3. Components of Pension Benefit Obligation

	As of July 1,					
	2007		2009			2011
Retired and Deferred	\$	2,782,718	\$	3,771,671	\$	4,781,903
Current Employees Accumulated Employee Contributions		4,936,912		5,232,938		6,746,597
Employer-financed Vested		4,625,093		3,185,354		2,850,139
Employer-financed Non-vested		518,286		345,710		450,645
Total Pension Benefit Obligation	\$	12,863,009	\$	12,535,673	\$	14,829,284

4. Funding Status and Progress

The amount shown as "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected inflationary salary increases and step-rate benefits estimated to be payable in the future as a result of employee service to date. The measure is intended to help users assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among employers. The measure is the actuarial present value of credited projected benefits and is independent of the funding method used to determine contributions to the Plan.

The pension benefit obligation was computed as of July 1, 2011. Significant actuarial assumptions used in the computation include (a) a rate of return on the investments of 8.5% per annum net of investment expense and (b) projected salary increases of 4% annually. The unfunded pension benefits obligation to the City's employees at July 1, 2011, based on the actuary's computation at July 1, 2011, is as follows:

Pension benefit obligation: Retirees and beneficiaries currently receiving benefits and terminated employees entitled to benefits but not receiving them Current employees-	\$ 4,781,903
Employer-financed vested Employer-financed nonvested Accumulated employee contributions	2,850,139 450,645 6,746,597
Total pension benefit obligation	14,829,284
Net assets available for benefits, at market value	4,263,221
Pension benefit obligation in excess of assets	\$ 10,566,063

5. Actuarially Determined Contribution Requirements and Contribution Made

Pension plans sponsored by public entities such as the City are not required to comply with the specific funding requirement which govern pension plans sponsored by private employers. The principles of equity require that the cost of a public employee's pension plan be spread over the years in a reasonable manner which, in the absence of plan changes and deviations of experience from the expected, would build up during each working generation, as a reasonably level percentage of that generation's earnings, the funds needed to pay that generation's benefits. The Entry Age Normal actuarial funding method is used by this fund.

Current accounting practice suggests that a reasonable contribution to a pension plan would be one which would cover the Normal Cost of the plan and would amortize its Unfunded Actuarial Accrued Liabilities over a period of not less than ten (10) nor more than forty (40) years.

The significant actuarial assumptions used to compute the reasonableness of the pension contribution are the same as those used to compute the pension benefit obligation described above.

F. Postemployment Healthcare Plan

Dyersburg City Schools

1. Plan Description

The Dyersburg City Schools participate in the state-administered [Teacher Group Insurance Plan], for healthcare benefits. For accounting purposes, the plan is agent multiple-employer defined benefit OPEB plans. Benefits are established and amended by an insurance committee created by [Tennessee Code Annotated (TCA) 8-27-302 (teachers)]. Prior to reaching the age of 65, all members have the option of choosing a preferred provider organization (PPO), point of service (POS), or health maintenance organization (HMO) plan for healthcare benefits. Subsequent to age 65, members who are also in the state's retirement system may participate in a state-administered Medicare supplement plan that does not include pharmacy. The plans are reported in the State of Tennessee Comprehensive Annual Financial Report (CAFR). The CAFR is available on the state's website at http://tennessee.gov/finance/act/cafr.html.

2. Funding Policy

The premium requirements of plan members are established and may be amended by the insurance committee. The plans are self-insured and financed on a pay-as-you-go basis with the risk shared equally among the participants. Claims liabilities of the plan are periodically computed using actuarial and statistical techniques to establish premium rates. The employers in each plan develop their own contribution policy in terms of subsidizing active employees or retired employees' premiums since the committee is not prescriptive on that issue. The state does not provide a subsidy for local government participants, however, the state does provide a partial subsidy to Local Education Agency pre-65 teachers and a full subsidy based on years of service for post-65 teachers in the Medicare Supplement Plan.

Annual OPEB Cost and Net OPEB Obligation (dollars in thousands)	Teacher Group Plan
ARC	\$ 466,000
Interest on the NPO	24,092
Adjustment	(23,449)
Annual OPEB cost	466,643
Amount of contribution	(182,164)
Increase/Decrease in NPO	284,479
Net OPEB obligation - beginning of year	535,382
Net OPEB obligation - end of year	\$ 819,861
	A CONTRACTOR OF THE PROPERTY O

Year End*	Plan	0	Annual PEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation At Year End
6/30/2012	Teacher	\$	466,643	39.04%	\$819,861
6/30/2011	Group Teacher Group	\$	399,906	39.00%	\$538,382
6/30/2010	Teacher Group	\$	399,174	38.23%	\$385,003

3. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2011, was as follows (dollars in thousands):

	Teacher Group Plan
Actuarial valuation date	7/1/2011
Actuarial accrued liability (AAL)	\$ 4,920,000
Actuarial value of plan assets	_
Unfunded actuarial accrued liability (UAAL)	\$ 4,920,000
Actuarial Value of Assets as a % of the AAL	0%
Covered payroll (active plan members)	\$ 14,918,076
UAAL as a percentage of covered payroll	32.98%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

4. Actuarial Methods and Assumptions

Calculations are based on the types of benefits provided under the terms of the substantive plan at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. Actuarial calculations reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

In the July 1, 2011, actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 4.5% investment rate of return (net of investment expenses) and an annual healthcare cost trend rate of 10% initially, reduced by 0.5% per year to an ultimate rate of 5.0% after ten years. Both rates include a 3% inflation assumption. The unfunded actuarial accrued liability is being amortized as a level percentage of payroll on a closed basis over a 30 year period beginning with June 30, 2008.

F. Fairview Cemetery Trust Fund

Pursuant to the General Cemetery Act of 1968, the Fairview Cemetery Trust was established by the City in May of 1969. The purpose of the Trust is to provide perpetual "improvement care" of the cemetery grounds as defined in TCA Section 46-102 (11). However, such care shall be furnished only insofar as net income derived from the trust will permit.

In the trust document, the City agrees to deposit in this trust minimum monthly amounts equivalent to one-half the sales price of cemetery lots and mausoleums plus one-half the amounts received for special care of any lot, grave, mausoleum, monument, etc. The trustee is to pay the net income from the trust to the City at regular intervals which are to be not more frequent than quarterly.

G. Commitments

The Water and Sewer Fund entered into a multi-year contract for maintenance of the City's five water tanks. The Board approved the contract at its meeting on October 3, 2005. The maintenance fee is due monthly and began on January 1, 2006. The fee schedule is as follows:

```
January, 2010 - December, 2010 $ 15,377 per month
January, 2011 - December, 2013 $ 7,110 per month
```

The Water and Sewer Fund entered into a multi-year contract for maintenance of the City's three claricone tanks. The contract was signed by the Mayor on September 17, 2007. The maintenance fee is due quarterly and began on October 1, 2008. The fee schedule is as follows:

October, 2009 - September, 2014 \$ 3,885 per quarter

CITY OF DYERSBURG, TENNESSEE REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED) FOR THE FISCAL YEAR ENDED JUNE 30, 2012

SCHEDULE OF FUNDING PROGRESS - RETIREMENT PLANS

The City has separate retirement plans for different segments of employees. The three plans are for employees of the City School System, Electric System, and the other City functions. The funded status of the Plan for each of these groups is presented below for the respective years of each Plan.

City	Sch	anl	0

		As	of January 1,	
	2005		2007	 2009
Actuarial Value of Assets	\$ 3,853,581	\$	4,074,946	\$ 4,395,449

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Board of Mayor and Aldermen City of Dyersburg Dyersburg, Tennessee

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Dyersburg, Tennessee (City), as of and for the year ended June 30, 2012, which collectively comprise the City's basic financial statements and have issued our report thereon dated March 11, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the Dyersburg Electric System, as described in our report on the City's financial statements. This report includes our consideration of the results of the other auditor's testing of internal control over financial reporting and compliance and other matters that are reported on separately by those other auditors. However, this report, insofar as it relates to the results of other auditors, is based solely on the reports of the other auditors.

Internal Control Over Financial Reporting

Management of the City is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We and the other auditors did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined previously. However, we and the other auditors identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies in internal control over financial reporting as items 2011-01, 2012-01 and 2012-02. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatements, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests and the tests of the other auditors' disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The City's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the City's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use by management, the Board of Mayor and Aldermen, federal awarding agencies, pass through entities, the State of Tennessee Comptroller's Office and other regulatory bodies, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND
ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Board of Mayor and Aldermen City of Dyersburg Dyersburg, Tennessee

Compliance

We have audited the City of Dyersburg, Tennessee's (City) compliance, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2012. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the City's management. Our responsibility is to express an opinion on the City's compliance based on our audit. We did not audit the financial statements of the Dyersburg Electric System. Those financial statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts and opinions included for the Dyersburg Electric System is based on the reports of the other auditors.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and OMB Circular A-133, "Audits of States, Local Governments and Non-Profit Organizations." Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the City's compliance with those requirements.

In our opinion, and the opinion of other auditors, the City of Dyersburg, Tennessee complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the City's internal control over compliance with requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use by management, the Board of Mayor and Aldermen, federal awarding agencies, pass through entities, the State of Tennessee Comptroller's Office and other regulatory bodies, and is not intended to be and should not be used by anyone other than these specified parties.

Dyersburg, Tennessee March 11, 2013

CITY OF DYERSBURG, TENNESSEE SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

A. Summary of Auditor's Results

- 1. The auditor's report expresses an unqualified opinion on the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of The City of Dyersburg, Tennessee.
- 2. Three significant deficiencies noted during the audit of the financial statements are reported in the Report on Internal Control Over Financial Reporting and on Compliance and Other Matters based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards. No material weaknesses were noted.
- 3. There were no instances of noncompliance material to the financial statements of the City of Dyersburg, Tennessee, which would be required to be reported in accordance with Government Auditing Standards, disclosed during the audit.
- 4. No material weaknesses or significant deficiencies in internal control over major federal award programs were disclosed during the audit.
- 5. The auditor's report on compliance for the major federal awards program for the City of Dyersburg, Tennessee, expresses an unqualified opinion on all major federal programs.
- 6. There were no audit findings disclosed that are required to be reported in accordance with Section 510(a) of OMB Circular A-133.
- 7. The programs tested as major program include the National School Lunch Program CFDA #10.555; At Risk Snacks CFDA #10.555; National School Breakfast Program CFDA #10.553; National School Lunch Program Commodities CFDA #10.555: Federal Highway Program Downtown Enhancement CFDA #20.205.
- 8. The threshold used for distinguishing between Types A and B programs was \$300,000.
- 9. The City of Dyersburg, Tennessee, was not determined to be a low risk auditee.

CITY OF DYERSBURG, TENNESSEE SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

General Government

2011-01 Unpaid Property Taxes

<u>Condition:</u> Our audit of unpaid property taxes indicated that several City employees owed real estate taxes at year end. The unpaid taxes were at least six months overdue.

Criteria: All property taxes should be paid by the due date.

<u>Effect:</u> The City does not send delinquent property tax notices on a routine basis.

<u>Recommendation:</u> We suggest that all property taxes owed by City employees be paid timely. It is imperative that financial responsibility begins at home.

Response: We will review the unpaid property tax register periodically for payment status.

2012-01 Disaster Recovery Plan/Data Backups

<u>Condition:</u> Subsequent to the fiscal year end of June 30, 2012, the City encountered a loss of accounting transactions as a result of lightning strikes that damaged the City's computer systems. The City was able to reconstruct the data from manual documentation maintained at City Hall.

<u>Criteria:</u> Title 5 Chapter 27 of the Internal Control and Compliance Manual for Tennessee Municipalities states that backups should be made of all data on a regular basis and the backups should be securely stored off-site.

<u>Effect:</u> Current backups were not completed and maintained off-site to restore accounting data that was lost.

<u>Recommendation:</u> We suggest that the City review and update their Disaster Recovery Plan and also make efforts to improve data backup processes. The City should also implement additional procedures to ensure that the backups are maintained at an offsite secure location.

Response: We have implemented the following for disaster recovery: abandoned backup to unreliable tape drives, backup to hard disk nightly, backup online to an off-site location, backup to a second server located at the EOC, and store previous weeks backup disk in a lock box at the bank.

2012-02 Budget Exceeded

<u>Condition:</u> During the year ended June 30, 2012, expenditures exceeded appropriations in the general fund by \$609,334, community development fund by \$47,612, insurance reserve fund by \$351,269 and in the communications service fund by \$5,120.

<u>Criteria:</u> TCA 6-56-205 states that "the governing body shall not make any appropriations in excess of estimated available funds, except to provide for an actual emergency threatening the health, property, or lives of inhabitants of the municipality and declared by a two-thirds (2/3) vote of all members of the governing body present, when there is a quorum".

<u>Effect:</u> Expenditures were not properly authorized by the City's board and state law was not followed relating to the budgeting of expenditures.

CITY OF DYERSBURG, TENNESSEE SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

<u>Recommendation:</u> We recommend that expenditures be compared to the budget on a continuous basis and the budget be amended when necessary, so that all expenditures are adequately approved within the City's current budgeting process.

<u>Response:</u> We will review the appropriate financial reports monthly to insure that expenditures are within budgetary constraints and will amend budgets when necessary.
